Remarks

Report of the Board of Selectmen

To the Citizens of Harwich:

The Board has successfully negotiated an agreement with the last private property owner of the abandoned railroad right-of-way. As a result, we have submitted an article, which if passed will give us continuous ownership of the rail bed from North Harwich to the Harwich-Chatham line. Because of the tremendous success of the Cape Cod Rail bike path, we have submitted a companion article to appoint a bikeway committee to study the feasibility of constructing our own "spur" trail. We would appreciate your support of these articles.

We have appointed a Computer Study Committee and asked them to investigate whether the Town should computerize additional functions, and if so, how best to accomplish it. A complete report is expected by January 1984.

Harwich has coped well with Proposition 2½ due to the cooperation and efficiency of all departments. Nevertheless, we are recommending the Town adopt a policy of having an annual audit. This will ensure impartial evaluation of the Town's performance as well as letting you know that your money is being properly handled. We have submitted an article to fund an audit for fiscal 1983.

We were pleased to be able to assist the Conservation Commission by negotiating for two parcels of land in the Herring River Conservation Area and submitting an article for their acquisition in the September 8th Special Town Meeting which you unanimously approved. There will be an article in this years warrant to acquire the last two parcels of privately owned land in this section of the Herring River marsh and we hope you will look on their purchase favorably.

We were extremely sorry to lose so many residents who had contributed toward a better Harwich. Your attention is directed to the first page for a complete list.

For those of you who may be new to Harwich, we are a full-time board and available to meet with the public on a daily basis. Being full-time also gives us ability to fulfill the expanding role of Selectmen, such as statutory membership on various county committees. Harwich will not become

disenfranchised as many communities are because their part-time Selectmen's first priority must be to their regular job.

We ask anyone interested in serving on a Committee to please complete the form found elsewhere in this booklet and return it to us. We are always looking for people with fresh insights.

We greatly appreciate the assistance given us by the general public, our employees and the many volunteers to Boards, Committees and Commissions.

Respectfully submitted,

BARRY A. HEMEON, Chairman
DONN B. GRIFFIN
JULIANA PETERSON

Report of the Harwich Historic District Commission

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The Commission received 6 applications in 1982 for approval of work on the exterior of buildings in the Historic District. All applications were approved.

In October a letter was sent to all property owners in the District as a reminder of their responsibility to keep their buildings in good repair and the grounds neat and attractive.

Respectfully submitted,

THEODORE R. LAWTON
Chairman, Historic District
Commission

Report of the Board of Assessors

To the Citizens of Harwich:

The Board of Assessors set the 1983 tax rate at \$13.70 on Oct. 1. This is a reduction of \$.20 per thousand of valuation.

As of Dec. 31, Harwich was the only Cape town to have set its tax rate. This only points up the fact that the Dept. of Revenue is not able to handle the court-ordered re-valuation certifications. The Assessors Association has proposed legislation to require a re-valuation every five years. We would like your support of this legislation, however, until the legislation passes, we must prepare to implement an update of our values for 1984. This will involve a study of all recent sales and a computer analysis of them, resulting in an adjustment of values.

We settled (out of court) our suit with our largest taxpayer, Commonwealth Electric, to the satisfaction of the town. Commonwealth Electric agreed with the town's original valuation.

Of all 20 suits brought by taxpayers, disputing their values, against the town, 15 were settled or withdrawn, 3 were settled for the taxpayers and 2 for the town.

The Belmont Condominium project is still incomplete, but is valued at over \$27,000,000, which produces in excess of \$370,000 in taxes each year. This is over 5% of the total taxes to be raised by the town.

We appreciated the payment in lieu of taxes by Pine Oaks Village.

On Sept. 30, we held a public hearing to again consider classifying property according to use. The Board voted not to classify.

We are continuing our policy of education for Assessors. This is especially important in the light of ever changing legislation, rules and regulations. This has resulted in Mrs. Peterson receiving her professional registration of Massachusetts Accredited Assessor in November.

We include a copy of the Cherry Sheet for your information.

Respectfully submitted,

JULIANA PETERSON, Chairman
DONN B. GRIFFIN
BARRY A. HEMEON

The response of our citizens in reporting suspicious incidents has been very positive during 1982. As a result, we have been able to reduce our Part I Crime Statistics for the fifth Consecutive year. In fact, the Part I Offenses have been decreased by 48% during the past five years. A very positive trend in light of the overall increases all around us. Please keep calling us whenever you observe anything of a suspicious nature!

We have also been concentrating on making our highways safer. Our increased enforcement of the motor vehicle laws has helped reduce our accident rate again this year. We also processed 113 persons for Operating Under the Influence of Alcohol. This is an increase of 57% over 1981.

Our efforts in conservation of consumerable products and the extension of the life of our equipment continues. We are continually looking for new and improved methods and would appreciate any ideas which you as citizens might put forward.

In February of 1982, Detective James G. Mendes retired from the department. Jim first joined the department in 1965. He served as a patrolman, was one of the original K-9 Officers, a detective and narcotics officer. Our thanks to Jim, and his family, for his years of service to the Town of Harwich.

I would like to publicly acknowledge and thank the members of the Harwich Jr. Women's Club. Their support of our Crime Prevention and Highway Safety Programs has helped make these programs very successful and popular.

I wish to thank the Board of Selectmen, the various town departments, committees, members of the police department and all the citizens of the Town for their cooperation and assistance during 1982.

Respectfully submitted,

JOHN S. RANEO
Chief of Police

Report of the Board of Appeals

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

During the period from January 1, 1982 to December 31, 1982, the Harwich Board of Appeals considered fifty-three (53) petitions for relief from the requirements of the Harwich Protective By-Law. In each case, a public hearing was held according to law. By the close of business on December 31, 1982, appropriate decisions have been made in each case and filed, or in process of filing, with Town Clerk.

The number of petitions processed during 1982 (53) is slightly below the number for 1981, when fifty-seven (57) petitions were heard by the Board. In 1980, the Board heard forty-five (45) petitions; in 1979, the number of petitions was thirty-four (34).

The Board of Appeals meets regularly on the last Tuesday of each month in the Hearing Room at Town Office. All meetings begin at 7:00 p.m. and a schedule of meeting dates through December 1983 is posted in Town Office.

Respectfully submitted,

JOHN L. ROCHE
Chairman

Harwich Council on Aging

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

When the Council on Aging was established eleven years ago, those establishing policy determined that it should be service oriented, that we would supply services to our affiliates and in turn expect that they would serve the agency and the community. This was partly as sound philosophy and partly because we did not enjoy the large supporting budgets of other towns. We have always paid only for a part time Director who has given much added volunteer time and with all the volunteer assistance freely given we have been able to serve the Harwich elderly well.

Our services are maintained for those who find it possible to come to the center and those who do not. The Mini-

bus, the Bookmobile, Friendly Visitors, Operation reassurance and insurance assistance serve the shut-ins while a wide variety of programs are developed for those who choose to participate.

The combined Womens' Workshop and Albrocrafter's have 17 volunteers who produce craft articles which are sold to benefit programs. The Senior Players and two knitting groups are led by five volunteers and there are ten Friendly visitors. Telephone Reassurance with 1 regular and 2 substitutes has made 5840 calls this year to "live aloners." The Mini Bus with drivers, aids and dispatchers has made 1344 passenger trips. 29 volunteers have put in 1200 hours as desk and referral receptionists. One desk volunteer signed in for the first time on August 30, 1971 and is still a once a week regular.

All of our volunteer staff are professional or have been trained to offer assistance. 42 people have received legal advice from 1 volunteer and 110 clients used our 4 volunteers for Income Tax help. Two volunteers have assisted 220 of our people with insurance and Blue Cross problems while one volunteer has given financial advice to 20 people and 97 persons have received Social Security counseling. 1946 of Harwich Seniors have benefited by our blood pressure clinic held two mornings a week by volunteer nurse Mary Vincent. Two volunteers provide Bingo games at Rambling Rose Rest Home twice a month and those who work on and for the Annual Jamboree number close to 200.

We are fortunate to enjoy such team work and our founding expectations have been exceeded. If there is a job to be done, Harwich Seniors will do it.

Respectfully submitted,

BEATRICE J. MASON

Report of the Harwich Water Department

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

For your approval, we submit the Annual Report for the twelve (12) month period ending June 30, 1982.

During this past year, water mains were installed on Ocean Avenue, Carlson Lane, and in sub-divisions on Allen's Harbor Lane, Cranberry Lane and Olde Homestead Lane. Five (5) fire hydrants were added to the system, bringing the total to 717. In addition, 179 domestic services were installed, increasing the total number of services in the system to 6309.

During the year, our on-going maintenance programs were continued. Much needed repairs were made to the wells and pumping equipment. At the main station, the vacuum system was overhauled, a new vacuum pump and tank were installed and the 100 H.P. electric motor was repaired.

The inoperable gasoline-powered standby engine at Substation #3 was removed for replacement by a newer propane-powered engine.

The pumping equipment at Sub-stations #1, #2 and #3 was inspected and the wells and pumps received a major overhaul. Well seals, bowl assemblies and shafts were replaced and pump motors were rebuilt and reconditioned.

Additional phase failure and lightning protection equipment was installed at all of the Sub-stations and telemetering and alarm equipment was replaced and updated.

As part of our storage facility maintenance program, the standpipe at Brooks Park was drained, cleaned and inspected and the altitude valve was overhauled.

At this time, a comment regarding the future is in order. The Water Department must address the need for system rehabilitation and expansion facing us in the future.

The largest expense will be the replacement of Kildee Hill Tank. At present, arrangements have been made to acquire the piece of property on Lothrop Avenue recommended as the site for the new water storage facility.

Initial steps have also been taken to add new pumping stations to augment the 7 existing Sub-stations. As part of our on-going program of well testing, several sites have been examined as potential future sources of drinking water. Testing on Water Department owned land on Bay Road in East Harwich has been completed, and we have received approval from the State DEQE to develop the area as a new well field.

Finally, transmission water mains will be required in areas of East Harwich near the proposed well field and in the Lothrop Avenue vicinity for the new water tank.

All of this work represents a major capital outlay investment. Part of the cost will be defrayed by a grant offer totaling \$271,195.00 awarded to the Department by the Commonwealth of Massachusetts. In addition, the previous \$1,000,000.00 water bond issued in 1968 for system expansion will be paid off in the coming year.

In the final analysis, the voters will be asked to spend a great deal of money on their town water system. But we believe it will be money wisely spent. By planning and completing system rehabilitation and expansion projects in anticipation of the needs of the town for the future, the Department will be able to safeguard the water quality and ensure an adequate supply of drinking water for Harwich's future.

In conclusion, we would like to express our appreciation for the continued cooperation of all town departments and officials.

Report of the Fire Department Headquarters Building Committee

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

As charged by Article 45 of the 1982 Annual Town Meeting the Fire Department Headquarters Building Committee was appointed on August 24, 1982, and shortly thereafter began a series of meetings aimed at developing preliminary designs for a new Headquarters Fire Station. Although some sites in town had been eliminated, the committee's first task was to recommend a location for this new facility which would benefit the town's people with the best possible response times and which would provide for the most cost effective placement of fire and ambulance vehicles.

Site selection became a complicated task as the committee examined seventeen possible locations and developed response maps from various areas in an attempt to find the best possible spot. Also considered were various recommendations from previous space needs committees as well as insurance organizations' comments regarding sites and the effects these sites would have on insurance rates throughout the town.

Although one recommended location near Sisson Road and Route 28 was turned down by the Conservation Commission, the committee still felt a responsibility toward shortening the response time to the "built up" area of Harwich, especially the West Harwich area without increasing the response time to North Harwich and the Headwaters area.

Since our first meeting on September 20, 1982 and up to the date this report was submitted, the committee has met thirteen times and, as a result of this work, we expect to present detailed recommendations to the 1983 Annual Town Meeting regarding the best and most economical site, as well as our time-table for completion of preliminary plans and future construction of your new Headquarters Fire Station.

Monday	252 (14%)	Thursday	249 (14%)
Tuesday	245 (13%)	Friday	267 (15%)
	Saturday	299 (17%)	

As you can see from the above statistics, there was a significant (7%) increase in the emergencies handled during 1982. All members of the Harwich Fire Department have given 100% effort during all these emergencies so as to keep property loss and personal suffering to a minimum.

II. PERSONNEL

On December 15, 1982 the Harwich Fire Department lost a Life Member, C. Francis Nickerson. Firefighter Nickerson joined the fire department in 1938 and has been a supporter of our efforts during his active and inactive membership years. He will be missed.

For many technical and logical reasons the fire department is again proposing the addition of dispatchers to our roster of personnel. Simply put, a very small increase in the fire department budget necessitated by the addition of dispatchers will result in a 25% increase in available on-duty manpower. Dispatchers and the accompanying increase in available manpower is an absolute necessity in light of the growing numbers of emergency calls we must answer each year.

III. FIRE PREVENTION SERVICES

The Fire Prevention Division of the Harwich Fire Department has been extremely busy this year with annual inspections, with implementation of the “multiple occupancy smoke detector law”, and with enforcement of the new state law requiring smoke detectors in all houses that change ownership. Through these regulations and laws, and with the cooperation of the public, we have been able to minimize loss of life, property, and production caused by fire.

As you are aware, we hold many public education sessions. Much of our time is devoted to the Boy Scouts, pre-school and school age children, church groups, and senior citizens’ groups within the Town. Along with public fire education, we also hold many sessions on emergency medical and first aid care. We hope, if it is possible, to hold a discussion on burns and burn injuries in 1983. The “Burn Prevention Course” will be aimed at minimizing burn injuries to young children. This age group has a 33% injury and fatality record, caused by burns. We invite any group in the Town to contact this department for future meetings and sessions.

Due to implementation of the multiple occupancy and re-sale laws, this year’s totals will be noticeably different:

Total money submitted to Town Treasurer	\$1,205.00
Oil Burner Inspections	66
Fire Alarm Inspections	124
Commercial License Inspections	120 (non-fee)
Business Inspections	169 (non-fee)

Total permits and inspections	764

IV. EMERGENCY MEDICAL SERVICES

The provision of emergency ambulance and rescue services continues to be a most rewarding part of our mission to the people of Harwich. Through your contributions to our Ambulance and Rescue Fund, we operate and equip our service almost totally without the use of tax dollars. All equipment, training, supplies, and maintenance is provided by the fund. Proposals have been submitted to the Selectmen which would enable us to purchase a new rescue boat, a computer system for patient files and personnel training records, and a system of payment for recertification classes — all using Ambulance and Rescue Fund monies and negating the need for tax dollars for these expenditures. The constantly growing fund is not only a source of pride within the department, but is the best way for us to provide the best service at the least cost. Thank you for your support.

VI. CONCLUSION

In concluding its busiest year on record, the Harwich Fire Department wishes to thank all Town Departments for their cooperation during the past year. Our appreciation for the support received from the public goes beyond a simple thank you. It is with this support that we can continue to offer our best for your future protection from fire and medical emergencies.

Respectfully submitted,

JOHN J. TROCCHI, Chief
Harwich Fire Department

Report of the Natural Resources Department

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

Enforcement and Promulgation of all Harbor, Shellfish and Herring Regulations, monitoring of water safety standards, maintenance of piers and floats including the total operation of Saquatucket Municipal Marina and Wychmere Town Pier all fall under the auspices of this Department. Even in light of Proposition 2½ we are pleased to report that we are improving some service while maintaining others including extra duties which are given to us at times by the Board of Selectmen. We willingly accept this challenge and are pleased to report another successful year, some highlights of which are summarized here.

Maintenance of moorings has always been a cooperative effort between Harbormaster and boat yards, however, in connection with private moorings, particularly those at Round Cove and Herring River, we are playing a far greater role in inspection and making sure these moorings get removed at the end of the season. This part will undoubtedly increase as time continues. A resolution at the Sept. 8 Special Town Meeting provided that the Town would have the right to charge for moorings either individual or yards in addition to any hauling or maintenance schedule or excise fee. This additional mailing, an approximate 300 letters, will be piled on mailings for waiting list updates, marina and Town slip contracts and billings of all kinds.

Waiting lists for space at the harbors are as long as ever for the few slips which become re-available each season. Some people have been waiting patiently on our three lists for over five years. This enthusiasm has encouraged the Waterways Committee and Committee on Harbor Development to consider additional recreational slips in the area of the end of the west dock at Saquatucket marina. The Town voted in STM Sept. 8, article 11 for the preliminary design and Permitting for these slips. From initial drawings it appears that the turning basin area might accommodate over 45 thirty foot class slips leaving plenty of turning room in front of the east docks for commercial traffic in that area.

This addition would in fact begin to satisfy our greatest Waiting List demand. Town support is critical in a project of this magnitude. This proposal should not be confused with that of the proposed "Fishboat" Basin which will eventually occur in another area of Saquatucket Harbor.

Dredging permits are being completed for work which must be done at Round Cove Channel, Wychmere Harbor Channel and Town Pier. Hopefully this work, for which funds have already been voted, will be done early in 1983.

Offloading of commercial fishing vessels at Wychmere Town Pier went very smoothly throughout the year and I would like to thank all commercial fishermen and their vendors who used the area. We were able to alleviate some of the parking problems by reorganizing the parking situation using concrete curb stops. Although parking is tight, there are many more usable spaces and the loading area is kept free.

Permission was applied for and received from First District C.G. to establish six private channel markers at the entrance channel of Herring River. Permission was also granted for a new jetty light at the west breakwater of Herring River. The light characteristic is slow flashing Green (LL No. 568.30), nominal range 4 miles. Additionally, by our resolute efforts, we were able to convince CG personnel to add buoy NUN 4 at Saquatucket entrance channel better marking channel limits, inspite of CG effort to extinguish buoys due to lack of funding. We wrote letters protesting this policy to Congress.

Because of the Towns affirmative action on Art. 35 of 1982, we were able to purchase one new 90 Hp Evinrude outboard motor for the Harbormaster boat. The new motor seems far more efficient and the power trim feature is invaluable for running in shallow water and beaching the boat. The patrolboat (1968) takes a terrible pounding each season and normally requires rebuilding every spring, but the hull is sound and should last many more years. Art. 70 of 1982, a change in the Boating Safety By-Law has yet to receive approval from the Attorney General at this writing.

Keeping pilings free from winter ice is an important task which can have valuable savings to the taxpayer or slip owner. Since the big freeze in 1976, marinas are aware of

just how costly a nasty winter can be. In addition to our piston type compressors, we have been experimenting during the winters with propellor driven "de-icers" and fan driven rotory blowers. We have had the most success with the latter and plan to use this economic system to a greater extent this winter.

The format of our shellfish permits has been completely revised. Because of the great number of regulations and difficulty of trying to read these regulations on the back of the old permit, the regulations will be issued with each permit on a separate sheet. The back of the 1983 permits will have an area to report catch. A catch report will have to be submitted by both Recreational and Commercial shellfishermen before a new 1984 license will be issued. Separate regulations will be issued to recreational and commercial permitters, ie. in this way we were able to shorten the Rules and Regulations to be read by either.

The Commercial Shellfish Regulation requiring a six month residency requirement prior to issuing the permit has been changed to comply with regulations mandated by the Division of Marine Fisheries. The new regulation requires certain criteria as valid proof of residency, but there is no waiting period.

Between June and October, 341 bushels of quahogs were transplanted from Cape Cod Bay to Allen and Wychmere Harbors. Allen Harbor, our most popular family area received the bulk of these mixed size stock. Soft shell clam seed was also transplanted from our shore line at Muddy Creek in 5 gallon containers each holding approximately 29,000 individual clams. The contents of 19 of these containers were planted in clamming areas at Allen Harbor, 15 at Wychmere and 7 at Herring River.

In keeping with our propagation proposals of last year, nursery rafts were allowed in certain areas of Town. Some of these caused complaints especially from Herring River where neighbors thought their orange colored floatation unsightly. With difficulty we were able to spray paint these rafts forest green. These neighbors may be pleased to know that we will probably not pursue the program any further at Herring River where it was found that results were poor contrary to our initial hopes. The results are as follows:

QUAHOGS

Area	Cages	# per raft	size IN	size OUT	Comments
Herring R.	18	50,000	7/32 - 5/16	7/32 - 7/16	Poor
Round Cove	4	50,000	7/32 - 5/16	7/16 - 5/8 some to 1"	Good
Pleasant B.	8	50,000	7/32 - 5/16	7/16 - 5/8	Good

It must be mentioned that there has been a tremendous set of Blue Mussels on many of the breakwaters and groins this year. Hopefully this might be an indicator of sets of other types of shellfish as well. This was a rather unusually wet summer, therefore, estuary salinities were perhaps below normal, contributing to conditions favorable to shellfish sets. Pond levels which had been unusually low over the past two years have returned to above normal levels and pond pH's were stabilized at 6.0.

Planning for both a Commercial Fishing Basin at Saquatucket Harbor and addition to the Recreational Boat Slips through extension of the West Dock continues. The Town's continued support of these projects will be of great help to commercial fishermen and boaters on our waiting list, as well as adding to the appeal of Harwich as a Town.

I wish to thank the Board of Selectmen, the various Town Departments and all the citizens of the Town for their co-operation and support during 1982.

Report of the Civil Defense Director

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

We have again been blessed with a calm year. The old standby of hurricane threat failed to materialize and the winter storms were without serious damage. We have been fortunate.

Each year brings us closer to the ultimate test of our yearly preparations. This past year, we participated in monthly training and/or planning sessions. Civil Defense Assistant Director Peter G. Welch attended a two week course on management of such situations. This training seminar was offered by the Federal Emergency Management Agency at the National Fire Academy in Maryland.

We are trying to remain in a state of readiness in order to reduce the effects of any crisis facing the Town of Harwich. I must report however, that our last remaining alert siren has ceased functioning. The Town now has only one fire "horn", which is located on Bank Street. This is strictly a fire horn and would not meet our needs in an emergency. To have no way of alerting the Town of Harwich leaves us in a dangerous situation.

What we need is a system of new sirens activated from the Police Station that would enable us to alert the citizens and visitors of Harwich of an approaching problem.

Our population has expanded. Many new people have no concept of the intensity of a hurricane or winter storm. These people, as well as you who have been here all your lives, deserve the protection afforded through an alert system.

In the upcoming year, we will make every effort to locate outside funding through the Federal or State governments to implement a new system. As a last resort, we will have to ask for your support on the floor of the Town meeting.

We stand ready to serve through the efforts of all the Department heads and the people working for them. This Town and its employees are all geared for service to one another in time of need. Civil Defense is not just for war. It is for any need that becomes greater than the individuals can handle. We stand ready to serve.

I wish to extend my thanks to the members of my staff and to the leaders and members of the Town for their help and cooperation during the past year.

Respectfully submitted,

JOHN S. RANEO
Director

Report of the Finance Committee

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The Finance Committee reorganized for 1982 as follows:

Sheldon J. Thayer, Jr., Chairman
Charles F. Coleman, Vice-Chairman
Robert L. Ruggles, Clerk
John E. Kelly
Richard E. Johnson
Emulous E. Hall, Jr.
Roger Cove
Robert D. Hall
G. Wesley Stidstone, resigned
Marilyn Leugers, appointed
Ann W. Kaplan, Executive Secretary

The Finance Committee wishes to express its gratitude, on behalf of the Town, to Robert F. Smith for his long and distinguished service to the Town, and to G. Wesley Stidstone, whose resignation was accepted with regret.

As spokesman for the taxpayers, the Finance Committee wishes to thank the Town Departments for their continued cooperation in implementing Chapter 580 (Proposition 2½). Once again, serious decisions were made that altered pre-scheduled capital investments and department operations. Yet, the Town Departments accepted postponements in planning and extended the same quality of services to our residents that we have come to expect.

The Finance Committee has adopted a policy on Special Town Meetings. The purpose of this policy is to clarify and define what we consider the function of Special Town Meetings. Copies of this policy are available at Town Hall.

As we become more familiar with Chapter 580, the indications are that Finance Committees should be spending more of their time and effort as financial planners, rather than the traditional practice of scrutinizing line item budgets. Harwich, as well as other Finance Committees throughout the Commonwealth, is finding itself at a crossroads with regard to a new responsibility, and perhaps a new role that Finance Committees will play in the future.

With this in mind, we have altered our approach to budget review and seem to find ourselves spending more time, and being more concerned with, planning for the future by anticipating capital investments in the next five or six years.

All departments have been instructed to formulate their budgets within the constraints of Proposition 2½. If this is done, the Finance Committee does not have to spend much time reviewing those budgets. Therefore, we think that the new role of financial planners can be attained.

The Committee will continue to publish a complete list, by department, of salaries and wages paid to Town employees during 1982 as part of this report. The list is compiled from W-2 forms prepared by the Town Treasurer for each employee.

We would also like to thank all of those involved for their efforts in making Harwich a better town.

Librarian's Report

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

We have enjoyed a fruitful and busy year with many activities beside the circulation of library materials. The Friends have sponsored evening lectures and slide presentations with the fellowship of refreshments afterwards, the Cape Cod Genealogical Society has met most months and worked mightily on the collection of genealogical books and papers, and the Harwich Garden Club has not only continued their weekly arrangements, but added a lovely planting on the Bank Street side of the Library.

Mrs. Mulcahy's well-attended Pre-School Story Hours have been held in the children's section upstairs and a special series of holiday workshops for youngsters, under the direction of Barbara Christian, proved to be most popular.

We are most grateful for gifts of money for large print books and for very special memorial books which add so much to our collection.

At the end of fiscal year 1982, the number of books included 34,387 volumes. Circulation of all library materials for the period was 85,944.

Report of the Trustees of Brooks Free Library

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The Board of Trustees held six regular meetings and two special meetings during the 1982 year. Meetings of the Cape Cod Library Club were attended by the Trustees and Librarian. As a member of the Executive Board of the Eastern Region Library Advisory Council, representing the Cape and Islands, Virginia Doane attended monthly meetings in Boston and other communities.

We are very pleased with the purchase of two Rogers Groups during 1982 at a most reasonable cost. The Trustees are most appreciative of the continuous and valuable help

of the Friends of Brooks Library and are especially grateful for their gifts of a table and a remote control Carousel projector for use in the Library. The Friends have also continued to purchase art prints which are circulated to patrons for six week periods.

We acknowledge with sincere gratitude the following gifts made to the Library this past year: the addition of \$500.00 to the Whiting Fund by Orville Storer; from the estate of Eugene S. Clark, Jr., five Charles D. Cahoon paintings; a five by twelve foot canvas mural by the late Hans Peter Hansen; and from the estate of the late John L. Morris, his complete library.

A special thank you to Virginia Doane, our Librarian, for her dedication, hard work and help throughout the year.

We have had a most rewarding 1982 and look forward to providing continued service to the people of Harwich.

Town of Harwich

Report of the Building Inspector

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

I hereby submit my report of activity for the Building Department for the calendar year 1982.

A total of \$13,355.00 was collected in various fees and paid to the Town Treasurer.

In 1982, a total of 539 building permits were issued for an estimated cost of \$7,152,437.00. This shows a decrease of 29 permits under 1981. Single family dwellings showed a decline by 18 units, having issued 108 permits in 1982 compared with 126 permits in 1981, a decrease of 14%.

There were 94 Certificates of Inspection issued for public and semi-public use group buildings which include schools, restaurants, churches, lodging houses, inns, motels and places of public assembly.

The following are the total number of permits issued in 1982 compared with the previous two years:

	1982	1981	1980
Building Permits	539	568	527
Sewage Permits	246	235	261
Demolition Permits	3	6	7
Sign Permits	23	20	34
Percolation Tests	173	187	233

The following table lists the number of permits and estimated permit values for the various types of construction for 1982:

108	Dwellings	\$5,047,000
2	Condominiums (10 units)	500,000
104	Repairs (Residential)	246,120
9	Repairs (Commercial)	29,110
55	Alterations (Residential)	179,770
14	Alterations (Commercial)	96,050
4	Alterations (Municipal)	7,400
89	Additions (Residential)	724,170

1	Sprinkler System (Commercial)	12,000
1	Dock	3,000
<hr/>		<hr/>
539		\$7,152,437

1982 has been a relatively quiet one for new construction. The last quarter was the busiest period with 42 new dwelling permits issued. This is a substantial increase over any quarter in the last two years. As of September 1, 1982, the State Building Code implemented the contractor's licensing program which has increased the workload. 173 percolation tests were witnessed and although there has been a decrease in the last three years, this does not dictate the level of activity in new home construction.

In addition to the building responsibilities, the Building Inspectors are also agents for the Board of Health, which require many regular inspections of restaurants and food service establishments. In several cases, additional inspections were needed. Seventeen of the nineteen public and semi-public swimming pools were also inspected and tested (two were not in operation). The agents acted on many nuisance complaints and inspected 250 sewage system installations. The addition of a qualified summer health inspector has lessened the workload in these various categories.

I wish to extend my appreciation to all the contractors whose cooperation and effort help make Harwich the great aesthetic Town that it is. My special thanks to the Board of Selectmen, Engineering Department, Fire Department and various other Departments that have shared in solving the many problems that have occurred in the past year and

again, my very special thanks to my competent and efficient staff.

Respectfully submitted,

GEORGE W. ARSENAULT

Report of the Parks and Recreation Commission

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

During the year 1982 this Commission has endeavored to maintain and improve the areas of the Town of Harwich under our jurisdiction and to support many ongoing recreational programs.

We traded-in five old sailboats for six new Mini-fish sailboats, which meant increased safety and efficiency for our summer sailing program at Sand Pond. At the suggestion of the Finance Committee, the fee of \$5.00 per two-week session for sailing lessons was charged this past summer. The sum of \$745.00 was collected and returned to the Town treasury to defray the costs of this program.

Our support has been given to the Harwich Town Band, Lassie League, Harwich Junior Theatre, Mariner Basketball, and the Adult Card-Playing group.

The Recreation Building has continued to be used by non-profit groups of all ages. Along with the customary groups we are pleased to report that Albrow House activities and Adult Education classes have enjoyed meeting here. At the 1983 Annual Town Meeting we plan to seek funds to install vinyl siding on the exterior of the Recreation Building.

In September the refurbishing of Brooks Park baseball field was begun under contract with Pilgrim Construction Corporation of Hingham, Mass. The project is expected to be completed within approximately one year.

This past year the Department's two old trucks were replaced by a 1982 GMC pickup and a 1982 GMC stake body

truck, which will be of considerable help to us for many years to come.

We were sorry to lose Edward W. Silva, Maintenance Foreman, when he decided to leave the Cape in October. Lee E. Whiting has been hired for this position and is doing a fine job.

We wish to thank other Town departments for their cooperation this past year, especially Mr. Martin E. Moran, Harwich Town Engineer, who drew up the plans for refurbishing the Brooks Park baseball field.

Report of the Planning Board

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

During 1982 the Planning Board held 28 regular meetings and 12 public hearings for subdivisions and zoning article changes. This year there were 29 Approval Not Required plans signed establishing 71 lots. Three subdivisions were approved creating 25 lots.

Zoning must be constant to accomplish the type of development that will meet the needs and goals of the community, however ever-changing conditions can call for change. Change should be considered only after investigation and planning for future goals have been established. With this in mind, the following sub-committees have been formed to advise the Planning Board.

Condominium Conversion Advisory Committee — This committee will investigate concerns and effect of the conversions

of properties to the various types of group ownership and determine whether this form of use needs additional controls. Commercial Development Advisory Committee — The areas of concern for this committee will include, but not be limited to, Harwich Port, Harwich Center, rezoning of Route 28, alternate areas of town and types of commercial development. Multi-Family Housing Needs Committee — The task of this committee will be to establish cause and effect of allowing Multi-Family development and to suggest suitable locations. Also part of their consideration will be various other types of housing which could meet the needs of the Town.

These sub-committees have at least one Planning Board member and the remaining members are qualified individuals from the community. All of the committee meetings will be open to the public and your input will be welcome.

This year's town meeting saw both passage and defeat of Planning Board articles. The Cluster Development by-law which allows for grouping of houses and promoting of large areas of open space, passed. No cluster development has gone through the required special permit procedure, however, several are under preliminary consideration by the Board. The complete revision of the sign code was defeated. The Planning Board remains supportive of any effort to bring our signs under better control in order to preserve and promote the quality of our commercial district. We are currently awaiting the report of the sign committee created by resolution at town meeting.

A Harwich Planning Board Handbook has been written and printed. The purpose of this booklet is to accumulate material on Planning Board duties, legislative requirements and procedure, implied and written, all under one cover so as to provide guidance and reference for Planning Board members. Anyone appearing before the Planning Board may find this booklet helpful. The booklets have been given to various town boards and copies are available at the town libraries.

The Board is currently working on the drafting of a water quality district. If Harwich has any future water problems it will not be lack of quantity but quality. This overlay district will control land uses which generate toxic materials in areas of contribution to our wells.

James Peterson, Richard Kelly and Bruce Anderson have left our membership because of other commitments. The Board wishes to thank them for their service. Sally Uertz and Wayne Ellis have joined us leaving us one member shy of a nine member board. If you have concern for the Town's future and would like to serve, contact the Board of Selectmen.

Report of the Beach Committee

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

1982 saw the Harwich beaches used by a record number of people for the 5th consecutive year. 9,378 beach stickers were sold producing an income of \$45,409.00. Your Beach Committee is concerned that the annual increase in beach use without a corresponding increase in maintenance, will strain the beaches ability to renew themselves. Our two year study is complete with several articles to appear in the Town Warrant this spring that should be of great value in keeping our beaches clean and in repair.

If Town Meeting passes the beach related articles, the Harwich Highway Dept. will assume responsibility for the daily and year round maintenance of our beaches and parking lots, and a beach cleaning machine will be purchased to provide weekly beach grooming. The Highway Dept. shall continue to provide trash pick up at an annual savings to the Town of \$5,000.00. The new maintenance program will cost more, but is an absolute necessity if we expect to keep our beaches in repair for future generations.

We expect to raise the entire cost of beach maintenance through beach sticker sales, a plan that may not be popular with all residents but should be recognized by most as a fair means of providing a most important service.

The new sticker categories seem to have worked well especially the one and two week stickers, while the color and marking code has made sticker enforcement a bit easier. The Beach Committee wishes to thank the Police Dept. for the excellent job done in enforcing the Town beach parking and sticker use regulations. Cooperation among the Selectmen, Police Dept., Highway Dept., Harbor Master, Tree Warden, Beach Superintendent, and concerned citizens allowed many beach projects to be completed including, improved drainage at several beaches; grading of the parking lot and planting trees at Long Pond; faster removal of seaweed; excellent trash pick up service; maintenance to the comfort stations and in general a smooth beach operation. The day to day in season success of our beaches is due in large part to the efforts of Beach Superintendent Andrews who does an excellent job with limited resources. The Beach Committee regrets the death of member Leonard Toney, a dedicated and wonderful man who shall be missed.

We welcome your comments, questions, and support and hope that all residents will view our attempts to improve beach maintenance as a matter of necessity and Town pride in our natural resources.

Report of the Wire Inspector

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

I hereby submit my report as Wire Inspector for the year ending December 31, 1982.

The following inspections were made by this department for new homes, change of services, temporary construction and the installation of off peak hot water meters.

I have made numerous visits to the Green Belmont Condominiums, Cornerstone Enterprise Condos in South Harwich, also, to the Harwichport Motor Lodge which is being converted into time sharing apartments.

Report of the Engineering Department

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

During the past year, the Board of Selectmen authorized the laying out of ten roads for public hearings and possible acceptance by the Town as town maintained roads. These roads include Driftwood Lane, Driftwood Circle, Red Pine Drive, Sandy Shore Way, Walton Road, Captain's Lane (Partial Taking), Raneo Way (Partial Taking), Paddocks Pond Road, Tupelo Drive (Partial Taking), and Westgate Road (Partial Taking). Except for Westgate Road, all roads are paved.

SKETCH -A-

The extensive drainage problems on Pleasant Lake Avenue and Long Pond Drive have been corrected with the installation of a piped system.

The Safety Improvement Project (TOPICS) got underway in September of this year. This project will improve conditions at eight intersections along with installation of sidewalks on Lower County Road. In addition, there will be a general improvement in the signing and pavement marking at 35 other intersections. Work is scheduled to be completed on or before June 1983.

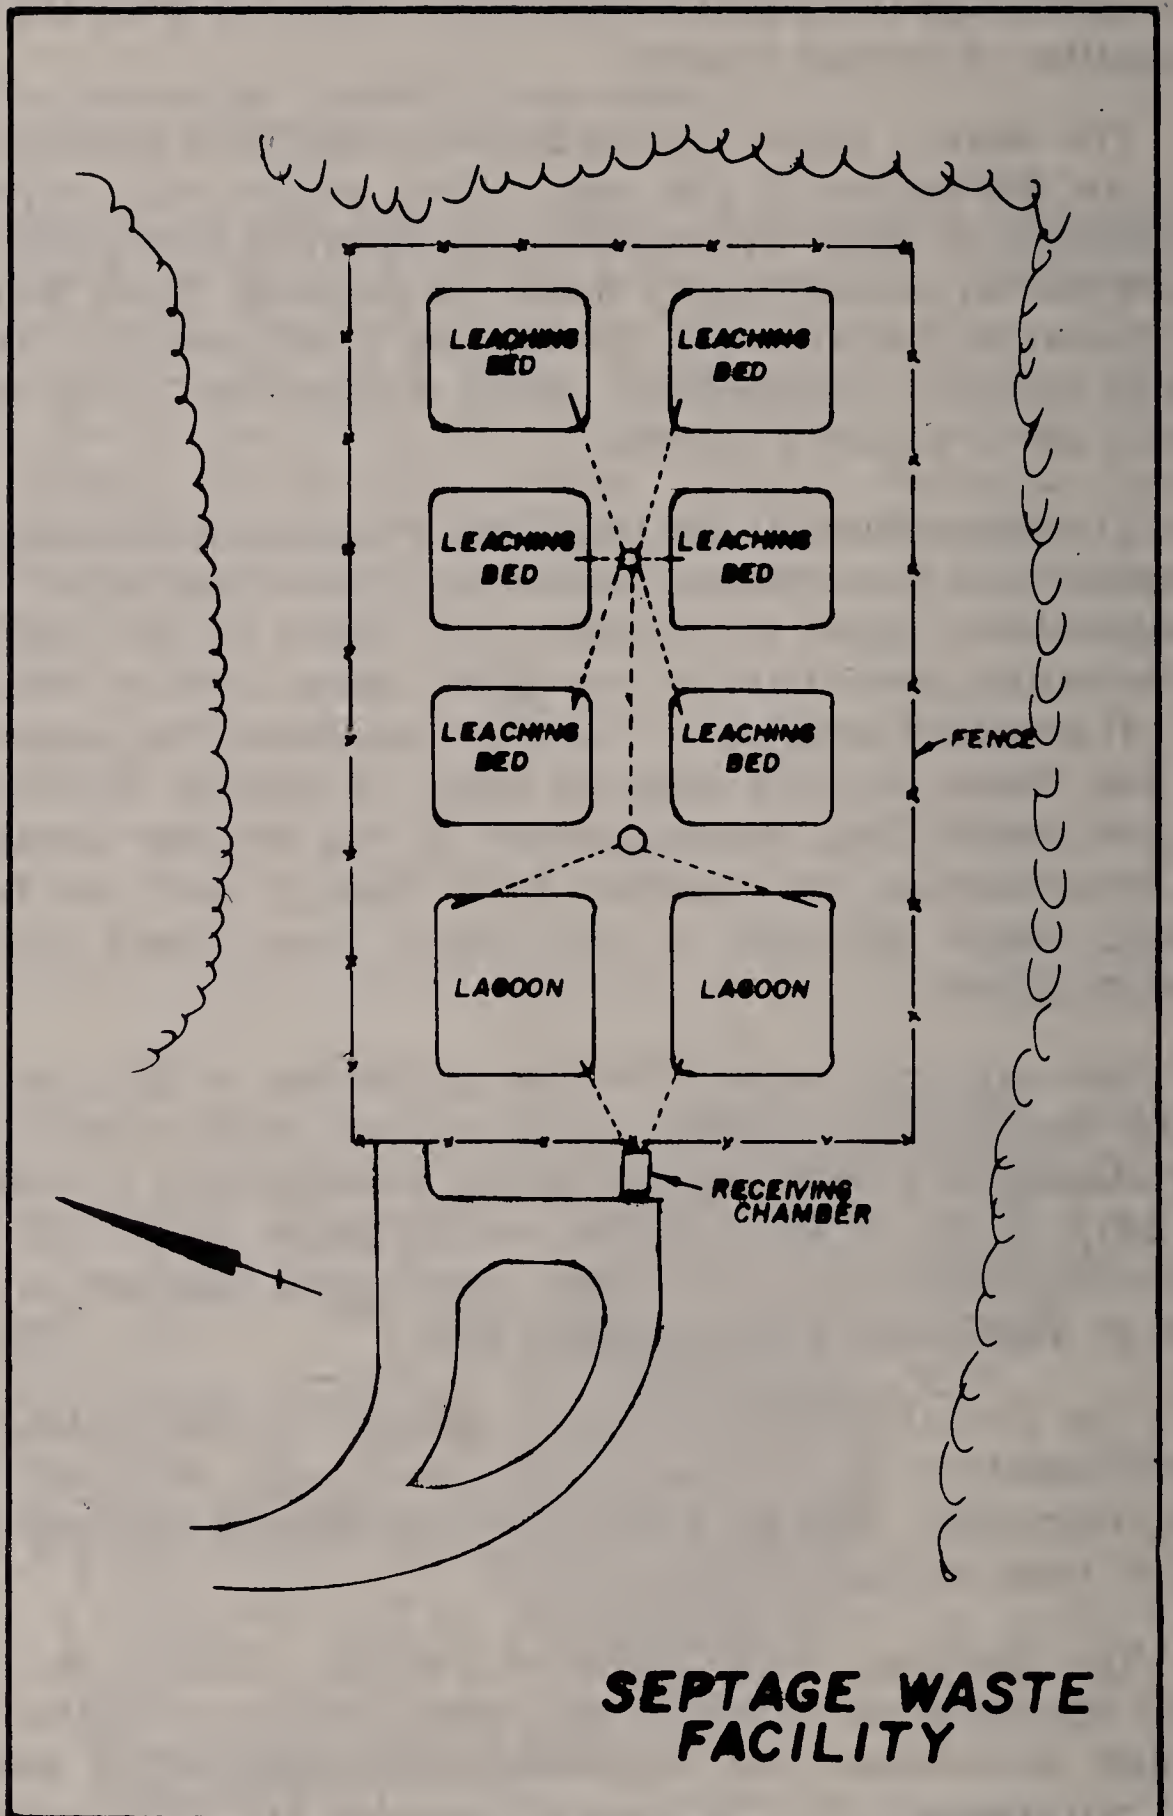

Through efforts of the Cape Cod Planning and Economic Development Commission studies have been performed and computations made to delineate the limits of our groundwater which contribute to our Town Water system (Sketch A). It has been pointed out by the Commission the necessity of the Towns to take steps in order to protect this single source aquifer from contamination as has recently occurred in Provincetown by gasoline tank leak(s) and on Long Island where 40 wells in one county were closed due to contamination.

Not only is it imperative that protection of the groundwater be foremost in our minds but we must protect our investment in a multi-million dollar water system consisting of $132\pm$ miles of various size mains, three tanks, 712 fire hydrants, and eight active wells which have supplied in excess of 418,000,000 gallons during 1981.

The Planning Board is in the process of formulating an amendment to the Zoning By-law which will minimize the use restrictions and yet maximize protection of the groundwater from contamination.

The Septage Waste Disposal Facility (Sketch B) has been operating satisfactorily as a result of the evacuation of sludge, excavation and replacement of spent filter media, and reforming of the lagoons and leaching beds. The volume of septage waste received, 2,372,900 gallons, has increased over last year by 13%.

It is a known fact that effluents from anaerobic disposal systems as well as leachates from sanitary landfill method of solid waste disposal are contaminating our groundwater aquifer. Although the town has approval from the Depart-

SKETCH -B-

ment of Environmental Quality Engineering to operate and maintain the present systems, new septage waste disposal guidelines as well as draft landfill regulation will necessitate the towns to monitor the various systems by installation of wells and sample analyses.

The Department has recently completed a listing of all roads in the Town. This alphabetical listing has been keyed to the town Street Map and Assessors Maps. It includes the right-of-way width and its status as a Town or Private way. There are a total of 630 named roads in Harwich for a total length of 164 miles.

As a result of the appropriation of funds at the last Town Meeting, work will commence shortly on the town owned "Pogies" building at Wychmere Harbor Town Landing. It is proposed to replace the support piles to be followed by reshingling of the exterior roof and sidewalls and replacement of the interior floor.

It has been noted during the past few years that many of the lots for which building permits are being requested are lots which ten years ago were generally thought to be unbuildable or too costly to make them buildable. It seems that as land (lots) becomes more dear, in the sense of cost and availability, more of these questionable lots will be used.

During the past year, there were 52 additional lots formed by Planning Board action. The majority of these lots are individual lots as opposed to those formed by subdivisions. As a comparison, there were over ninety new building starts this year. This comparison indicates that we are using lots faster than they are being formed which is probably due to high development costs.

As a result of the high cost of road construction and utility installation, developers are proposing cluster type developments. This form of development would reduce the amount of pavement and utilities required and extend the open space concept.

Throughout the year, the Engineering Department has received the fullest cooperation and assistance from all Departments.

Respectfully submitted,

MARTIN E. MORIN, P.E.
Town Engineer

Report of the Cemetery Commission

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

In Island Pond Cemetery 54 new lots were created, of which 22 are already sold, and some are in use. The Development of North Hillside, north of Oak Ave. and east of Harwich Ave. - North, if the Town appropriates funds from the Lot Sale Fund, will provide about 100 new lots. No more space will be available in Island Pond Cemetery for expansion, and thus the Town will not require new cemetery area until about January 1, 1986.

Total lot sales in 1982 were more than ever, a total of 64 lots valued at \$15,025. Increasing interest is noted in cremation lots at Pond Grove in Island Pond Cemetery, near Lily Pond, where 10 lots were purchased.

The Commission thanks Harold Richard Gonsalves, Superintendent, for faithful, efficient service and creative efforts to enhance the cemeteries.

A lot buyer in October considered Island Pond Cemetery the most beautiful she had ever seen for its natural beauty and wooded areas.

Although state legislation in 1981 enabled the Town to accept Evergreen Cemetery of East Harwich into the Town Cemetery system if offered, there has been no news from the Trustees.

Mrs. William J. Higgins, for five years Clerk of the Commission, has resigned. Much appreciated are her efficient, prompt and accurate services, for which we thank her.

ROGER W. MUNSEY, Chairman

Report of the Harwich Youth Commission

To the Honorable Board of Selectmen
and the Citizens of the Town of Harwich:

Darlene Maguire and Marguerite Germain were appointed to the Youth Commission, replacing Sandra B. Daniels and Marianne Todd. William R. Jobson, Jr., became Chairman of the Youth Commission.

The Harwich Youth Commission would like to thank Sandra Daniels and Marianne Todd for the work and energy they contributed to the youth of Harwich.

Two new Directors were appointed for the Youth Center: Myra Boyle in June of 1982 and Michael Kinhan in December of 1982, following the resignations of Karen Forni and Michael O'Connor.

The Youth Center's varied programs were well attended. The seasonal recreational programs of Fall and Spring street hockey and Winter indoor basketball saw an increase in youth participation. The grade levels involved in the programs were 5th through 8th.

During the winter months, after school activities were again offered to Harwich students. These activities included swimming, bowling, ice skating, roller skating, racquetball, and informal recreational activities. The Commission extends many thanks and appreciation to all sponsors, parents and volunteers for their donations and support of these programs.

The Drop-In Center continued to operate during the past year. It is an informal recreational program that is open to any Harwich student in grades 7 through 12. The students may come to the Center and play basketball, street hockey, pool, football, ping pong and Atari. Music is offered in the game room, and the upstairs quiet room has television.

During the past year, the Center sponsored over 25 off-Cape field trips. These included 14 separate day trips, summer campouts, 3 ski outings of one day each and one overnight ski trip to Mt. Sunapee, New Hampshire.

Visits to Rocky Point, Lincoln and Riverside Parks were a few of the favorite summer day trips offered. Others were

Red Sox games, Christmas shopping at the Hanover Mall, Edaville Railroad, Hampton Beach, Quincy Market and Mystic Seaport.

Two new trips which highlighted 1982 were a five day trip to Washington, D.C., and a four day trip to Canada. Visits to the White House, Smithsonian Institute and Capitol Building were part of the Washington trip, while touring the Olympic Stadium in Montreal and exploring the Old City of Quebec were included in the Canada outing.

The Hire-A-Hand program continues to offer the services of a youth for household chores and odd jobs that need an extra pair of hands. Any Harwich student or town resident interested in the program should call the Center.

During the year, fundraisers were organized by the Friends of the HYC, a non-profit organization, to raise money to maintain the van they provide for the Center's use.

Myra Boyle and Mike Kinhan look forward to an exciting and challenging upcoming year and want to express their appreciation for the support and time that many Harwich residents have offered in order to keep the Youth Center running as smoothly as it has for the past year.

Report of the Conservation Commission

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The most important decision the Commission was called upon to make this year was a denial of the request of the Fire Station Building Committee to obtain a section of the garden area on Sisson Road for a new fire headquarters. The Commission was unanimous in its ruling that conservation land be kept that way and not traded off to other Town departments. They felt the Town is large enough to produce a suitable site for a new fire station. Commission members were highly pleased with the great public support for their position.

Production on the Town-owned cranberry bogs near the Reservoir in North Harwich was the best in years. The new leasee has made tremendous improvements in the growing area, which constitutes a great increase in the Town's investment.

Thanks go to Dr. and Mrs. Elton Yasuna for their gift of land in South Harwich, which adds to a previous gift by them in the Julien Road conservation area.

Ninety gardeners tilled the soil in our garden area on Sisson Road with a substantial return for their efforts. During the growing season, this is an interesting place for a walk to observe the varied types of gardening employed there.

The Commission sat for forty-two hearings and issued order of conditions for homes and other projects in area near wetlands. There were fifteen formal determinations for the need for hearings and your Commission made some 125 site inspections, checking the need for hearings, possible violations and proper following of Commission orders. Seven procedural violations were detected and owners brought before the Commission for resolution of violations.

The Commission regrets the need for Thomas M. Evans, to resign due to the pressures of being Headmaster of Cape Cod Academy, Osterville.

Fees collected for hearings, garden rentals and cranberry production more than compensated for conservation budget.

The time is coming shortly when the Town will be faced with the need for a paid full or part-time agent for conservation work, since the field work, as well as interviews with developers and home improvers is quite time consuming, as well as a considerable expense for the volunteer Commission.

Report of the Personnel Board

To the Honorable Board of Selectmen
 and Citizens of the Town of Harwich:

The Voters of the 1982 Annual Town Meeting accepted the Classification and Compensation Plan submitted by the Personnel Board which recommended a 7.0% increase for wages of those Town employee positions listed on the Plan.

The Classification Plan submitted for FY 1984, recommends an increase for the wages of the employee positions listed. We respectfully ask the Voters to support this article.

The Board regrets the resignation of member Philip G. Zaramba and welcomes the appointment of Mrs. E. Ruth Harvey.

Report of the Public Health Nurse

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The Town Nurses continue to provide skilled nursing visits, under the direction of a physician, to home-bound persons. A sincere effort is made to understand the persons' physical and emotional needs. They are informed of available community resources, and help is offered in obtaining medical equipment and additional home care, if necessary.

For the people who are not home-bound, we have office hours every Wednesday at Brooks Academy, Harwich Center. The hours are 9:00 a.m. to 12 noon and the phone number is 432-1307. At that time a person may have a blood pressure check, receive a prescribed injection, also a weight check, diet instructions and guidance regarding prescriptions.

Our office notes with sadness the passing of Charlotte W. Morey, our Wednesday morning volunteer and member of our advisory board.

At this time we would like to extend heartfelt thanks to Katherine Kelly, R.N., who retired after many years of conscientious service.

We welcome as her replacement Rosamond Dunford, R.N., who will serve in a part-time capacity.

Our flu clinic was well attended this year, with eleven hundred shots given to elderly residents and Town employees.

We thank the Townspeople for making our service possible and we appreciate the support, cooperation and confidence placed in us by the Board of Selectmen. We also thank all other Town Departments, our Advisory Board and Volunteers.

Respectfully submitted,

MARY SCANNEL, R.N.

Report of the Committee Established to Study How to Increase Attendance at Town Meeting

Pursuant to a resolution of the former Town Government Study Committee passed by vote at the annual Town Meeting in 1978, it was recommended that a Committee be established to study how to increase attendance at Town Meeting in Harwich. Unfortunately, due to lack of interest, said Committee was not established and did not meet until 1981. Michael Ford, Moderator, appointed William Crowell, Chairman of said Committee on the town meeting floor at the annual Town Meeting in April of 1981 and announced at that time that any townspeople interested in serving on said Committee should contact either himself or Mr. Crowell. The following persons volunteered to serve on the Committee: Michael Ford, ex-officio member, James Marceline, Marguerite Donovan, Robert Coffin, William Marion, Allin Thompson, and William Crowell, Chairman. Michael McCarthy and Constance Pina also rendered assistance on a part-time basis.

The Committee met on twelve separate occasions from September of 1981 to February of 1982 (detailed Minutes of each Meeting are available at the Selectmen's office). After several meetings devoted to general discussion and suggestions the Committee drafted a questionnaire, copies of which were distributed at numerous locations around town to elicit responses to its suggestions from the voters. The Committee also drafted a questionnaire which was distributed to every other town on the Cape to acquire information as to how each town conducts its town meeting.

All towns responded and approximately 75 to 100 responses to the voter questionnaire were received. After reviewing these, the Committee met at length with the Selectmen and then with the Finance Committee to discuss generally the Committee's ideas. Finally, the Committee advertised in local newspapers that it would meet generally with the public to hear any further suggestions not contained in the responses to the questionnaire.

As the result of the information gathered by the Committee and the various meetings which it has conducted, the

Committee has decided upon several means of attempting to stimulate greater interest in town meeting. Changes which the Committee has suggested be implemented at the annual Town Meeting in April include increased publicity of the time and place for the meeting by the Selectmen in the newspapers, use of the Harwich Mariner billboards to be located at certain street intersections announcing the date and time of town meeting, construction of a banner to be hung across Main Street in Harwichport by the movie theatre, printing of extra Warrants to be distributed at local shopping centers, advertising in all of the local newspapers as to which local newspaper will print the entire Warrant, and the requested cancellation of all other meetings and activities in town during the week of town meeting.

The Committee is also undertaking to revise the form for submission of Articles for the Warrant for next year's Town Meeting so that the identity of the Petitioner is required for each Article that is submitted. This will assist the Selectmen in undertaking the Committee's suggestion to have the Petitioner for each Article named in the Warrant immediately after the Article so that the voters can readily identify the Petitioner for each Article. The Committee also recommends that Town Meeting begin at 7:00 p.m. rather than 7:30 p.m. so as to get an earlier start on things. In addition, the Committee sponsored the submission of an Article to reduce the quorum from 300 to 250 voters in order that Town Meeting begin on time and reduce the frustration of those voters who show up on time but have to wait sometimes an hour or two until a quorum is achieved.

With regard to town meeting procedure and the Warrant itself the Committee suggested that the Selectmen carefully review the ordering of the Articles so that an Article of great interest comes up each evening; also, the Committee suggested that Articles on a similar subject, for example, all Parks & Recreation Articles, be grouped together in the Warrant. The Committee will also attempt to institute a procedure to vote on all customary Articles to which there is usually no objection in a block i.e. a single Vote. The Committee also suggested that the Moderator request when permitted by law the waiving of repeated reading of Articles or Motions on Articles. It was further requested of the Finance Committee that it print in the Warrant or give a short oral summary on town meeting floor its reasons for its recommendation on

each Article so as to further inform the voters and to encourage discussion and voter participation. Finally, although the Committee encountered some opposition, it recommended that the first Motion on every Article be a Motion to accept and adopt the Article. In those cases where the Finance Committee recommends that the Article be indefinitely postponed, the Committee suggests that the Moderator look to the Petitioner for the Article to make the Motion to accept and adopt the Article. This would reduce voter confusion in having to vote No on a Motion to indefinitely postpone in order to gain the passage of an Article. It would also in the Committee's opinion expedite the meeting by only having to have one vote on an Article and would encourage voter participation in the town meeting procedure.

In making its recommendations, the Committee took into consideration as much as possible the interests of all voters and continually had to balance streamlining town meeting procedure with reducing voter frustration, confusion and apathy. Consequently, some of its suggestions are aimed at making the meeting run more smoothly while others attempt to increase voter participation and interest, even if it is at the cost of slowing down the meeting somewhat. The Committee's main objective, however, has been to encourage the voter to become a participant instead of a spectator or, at the very least, to get him or her in the door in the first place.

Respectfully submitted,

WILLIAM D. CROWELL, Chairman

Report of the Barnstable County Health Department

The Harwich Board of Health gratefully acknowledges all that the Barnstable County Health Department has done for the Town during 1982. The full report of the Barnstable County Health Department is on file at Town Hall, should anyone care to read it in its entirety.

1982 Annual Report of the Harwich Golf Commission

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The Financial Statement of the Cranberry Valley Golf Course for the last fiscal year ending June 30, 1982 is as follows:

INCOME

Resident Fees	\$ 85,750
Greens Fees	250,271
Motor Carts	59,871
Pull Carts	4,025
Driving Range	21,879
Snack Bar	1,000
Other	91
TOTAL INCOME	\$422,887

EXPENSES

Principal on Bond	\$ 40,000
Interest on Bond	22,376
Salaries & Wages	126,832
Overtime	5,503
Expense	112,143
Articles	7,835
TOTAL EXPENSE	\$314,689

This resulted in a yearly profit of \$108,198 which will reduce taxes of golfer and non-golfer alike. The cumulative eight-year profit now stands at \$459,359.

Once again the 1973 Annual Town Meeting Promises have been kept; those promises being that the golf course:

1. would be self-liquidating
2. would be self-supporting
3. would be profit making
4. would be beautiful and have a low resident fee

Our residents now play golf on a nationally recognized golf course for a mere \$125/year. In the interest of clarifying

the Yearly Resident Fee to play golf, Resident Play is equal to one-half of Total Play, yet Resident Fees equal only 30% of Total Expenses. If residents paid their fair share of 50% of Total Expenses, the Resident Fee would be \$200/year. Further, if Resident Fees had risen with inflation since 1974, the Resident Fee would be \$250/year. Therefore, with a Resident Fee less than \$250/year, this must be considered a bargain in today's economy. The bottom line of all of this is that at the present Resident Fee of \$125/year, residents are playing golf for \$10/month rather than \$10/day.

At the time of this writing, the Golf Commission is engaged in preparing two major articles for the 1983 Annual Town Meeting Warrant. One is an addition to the Pro Shop which is now grossly inadequate for the tremendous unanticipated play we are now experiencing. The second article is for an additional nine holes of golf either on purchased land to the North of our present facility or on school land to the South. The Golf Commission will evaluate these two sites with the maximum benefit to the Town in mind; that being the highest profit and the lowest resident fee.

Again, I thank the Golf Commission, Ken Diskin and his staff in the Pro Shop and Frank Santos and his staff in the Maintenance Department for their team effort in another successful year.

Report of the Committee on Harbor Development (COHD)

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

COHD'S fourth year of operation was marked by broad and deep-scale preparations and results. Work by the committee included proposal preparation and coordination as well as negotiations with many state and federal agencies, each involved with the Saquatucket Fishboat Basin Project. Our efforts appear to have borne results:

1. During the April 82 Town Meeting, the Town directed COHD to prepare funding proposals and permitting for Basin construction by a vote of 432-9. In response to this action, proposals have been prepared. Army Corps of Engineers has budgeted \$500,000 as their initial contribution to Basin excavation and channel deepening. Total Basin cost is \$3.065 million.

2. During the same April meeting, the Town approved Basin Project landtaking and funding by a vote of 432-9. Negotiations with the owner ensued and acquisition is anticipated in early 1983.

3. Detailed technical studies of the Basin's final design by Army Corps resulted in complete acceptance without change by that agency. Engineering, economic, financial, environmental, social and operations aspects received deep Army Corps scrutiny. Acceptance by the Corps and its decision to deepen the channel from 6 to 8 feet is welcome news especially since the Town shares no cost in this vital but expensive task.

4. Detailed technical coordination with a myriad of Massachusetts environmental agencies on permitting aspects of the Basin project seem to indicate, from pre-negotiation, no problem areas which cannot be resolved expeditiously. It should be noted the paperwork to be submitted in early 1983 weighs about 22 lbs. total. A total of nine agencies are involved in granting Harwich permission to build the Basin project.

5. During the summer a plan to add 35-50 slips to the Saquatucket recreational marina was evolved. The Town

responded to the plan by approving preliminary engineering and permit preparation at the September 82 Special Town Meeting. The expansion will result in additional \$18,000-26,000 tax-offset revenue after a 1-2 year payoff period. The present six-year waiting list should be relieved by the expansion program.

6. During the Fall, Town surveys of high priority dredging projects at Wychmere and Round Cove were prepared. Engineering and permitting contracts will be underway in early 83 with hopes to dredge by Spring 83.

7. The Town meeting voted a Mooring Fees Schedule in September. This should increase tax-offset revenues to the Town and pay for expenditures involved with the 300-odd moorings around town.

8. Late in the Fall a joint discussion of increasing public safety at our harbors ensued among COHD, Fire and Police Departments, and the Waterways Committee. Alarm testing was worked out for the Fire Department. Increased protection measures for both boats and the public are presently under discussion.

All in all, the work involved and COHD's level of success in harbor planning and improvement have been a direct function of the Town Meeting's recognition of the importance of harbors, commercial fishing, and pleasure boating to Harwich life-style, economy and tax-offset revenue. I hope to report to you next year that permitting and funding acquisition are nearly complete.

Respectfully submitted,

RICHARD C. BURTON II
Chairman - COHD

Report of the Department of Veteran's Services

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

This office has maintained a close liason with the federal Veterans Administration, particularly in the matter of pensions, and the various benefits currently available to veterans. The new 12% interest rate effective November 1982 on GI Veterans Administration Home Loans was agreed upon jointly by the Veterans Administration and the Department of Housing and Urban Development, and is in line with interest rate reductions, and in some instances lower, than those in the private sector. Any veteran who needs to apply for a certificate of eligibility may do so through this office.

During the past year 1982, many veterans and their families have been aided through Veterans' Benefits under Chapter 115 of the General Laws of Massachusetts, including many temporary hardship emergency cases.

Veterans and dependents of deceased veterans are advised to contact this office at the Harwich Town Hall for help in competing their just claim for benefits, services, and any entitlements legally due them.

The office is located at the Harwich Town Hall on Rte. 39, Harwich Center. It is advisable that you call for an appointment, if possible, before coming in so you may be taken care of with no waiting. The telephone number is #432-1083. We also serve the Towns of Eastham and Wellfleet.

Report of the Surveyor of Highways

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

I am pleased to report that your Highway Department has accomplished some major projects this past year. We have relieved several drainage problems and in addition, a significant traffic hazard was eliminated by changing the intersection of Route 124 and Long Pond Drive. Construction on the sidewalk on Sisson Road began this Fall and we hope to be able to complete the first phase this coming Spring.

I would like to take this opportunity to focus your attention on the acute need for a new Highway Maintenance Building. Since you are aware of the potential for saving the Town substantial sums of money each year by maintaining other departmental vehicles and by centrally purchasing parts and equipment necessary thereto, I urge your active support and participation in the presentation and consideration of the Article I have submitted in the Warrant for the Annual Town Meeting in 1983. Prior acquisition of the land for this building on Queen Anne Road at the Town Meeting in 1978 will greatly expedite the buildings completion and thus begin the return on the investment.

I wish to thank the Citizens of Harwich, the Department Heads and the Employees of the Town for their assistance and co-operation over the past year and I look forward to working with them in the future.

Respectfully submitted,

ALBERT H. RANEO
Surveyor of Highways

Report of the Board of Health

To the Citizens of Harwich:

For many years the Board of Health has been in charge of the salt water beaches, with responsibility for the hiring and scheduling of personnel, the maintenance of the comfort stations and the cleaning of the beaches. Money appropriated to clean and maintain the beaches has not kept pace with inflation and increased usage and many times the cleanliness has reflected this lack of money, a major concern to your Town Officials! In an effort to assure proper daily cleaning we have jointly submitted an article with the Beach Committee and Highway Department to transfer beach cleaning to the Highway Department. This article requests funds for additional personnel and specialized cleaning equipment.

A companion article requests an increase in the beach sticker fee to offset the increased costs, we ask for your support.

We are in need of a new loader for the Disposal Area. This heavily used piece of equipment was acquired when the Disposal Area opened in 1967. A transfer from the Highway Department of a dump truck will be requested at the April Town Meeting as well.

Rosamond Dunford has replaced Katherine Kelley and Wilhelmina Noyes as Assistant Town Nurse. 1130 flu shots were dispensed in 1982 and are again scheduled for the coming year, hopefully at the same \$2.00 price.

The year-round inspections of all commercial food establishments will continue with the results available to the media. The County gives us strong help in this effort.

We thank the County Sanitarians, Town Nurses and all others who assist the Board of Health throughout the year. A special thanks to our Beach Committee for an outstanding job.

Report of Inspector of Animals

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The following report is for January 1, 1982 to December 31, 1982.

There were ten dog bites reported to me for the year. All dogs were quarantined and all proved to be negative.

Again all stables were inspected and all the horses, cows, sheep, goats and pigs were counted. I also handled numerous wild animal calls.

Respectfully submitted,

SANDRA BOWEN
Inspector of Animals

Report of Animal Control Officer

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The following report is for January 1, 1982 to December 31, 1982.

There were less dogs licensed this past year than the previous year as of December 31st. New dog licenses will be available on April 1, 1983 at the Town Office.

We did not have a rabies clinic last year, but we will be having one this year. Posters will be put up when I get a date from the veterinarian.

Again my appreciation to the Harwich Police Department for their continuing help.

Respectfully submitted,

SANDRA BOWEN
Animal Control Officer

Report of the School Committee

For Year Ending December 31, 1982

To the Citizens of Harwich:

1982 saw the completion of administrative changes begun in July 1981 when Mr. A. Robert Twiss was appointed Superintendent. Miss Joan McQuiston was appointed Elementary K-6 Principal in November 1981 replacing Mr. Donald C. Nesmith who retired after 27 years in the Principalship. Mr. Vincent P. Bresnahan came on board in July as Principal of the High School when Mr. Russell K. Noyes retired.

The Committee gratefully acknowledges the accomplishments of the two retiring Principals and wish them the best in their retirement.

As a result of the annual town elections in April, the School Committee also experienced change. As our newest members, Mr. David D. Tobey and Mr. Joel S. Weinberg are doing a most conscientious job. It is a pleasure serving with them.

The enrollment this past October was 1276 with a faculty of 100 plus 11 tutors. Per Pupil cost for this school year (1981-82) is \$2,629.00 which continues to be on par with other schools on the Cape.

While frugality has been the watchword for some time; this Committee considers seriously its obligation to see that the Harwich School System is meeting the needs of all its students in order that they may be prepared to compete either scholastically in college or technically in the business world.

At the same time, the Committee is custodian of three school buildings and numerous pieces of equipment which must be maintained, repaired or replaced. With an eye on the rising cost of energy, the School Department has embarked on an energy-conservation plan. This past summer, insulation was installed in all three schools. The high school was in particular need having no overhead insulation whatsoever.

At the request of the Golf Commission, this Committee voted to relinquish jurisdiction over a parcel of land on Oak Street. The land is to be returned to the town for possible use as part of an additional 9-hole golf course.

The Committee wishes to take this opportunity to express a special thank-you to the many citizens who contribute time and effort to the students through volunteer work in the schools. To those citizens who are always supportive of the efforts of our students, teachers and administration, our appreciation.

To our teachers, the oft-times unsung heroes who guide our "leaders of tomorrow", a public note of gratitude.

To our students, thanks—thanks for being you.

In closing, this Committee and administration, working as a team, continues to recognize its responsibility for the education of the young people of Harwich while evermindful of, and appreciating, the concerns of the taxpayers.

Respectfully submitted,

FRANCES BALLAM, Chairman
Harwich School Committee

Report of the Superintendent of Schools

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

As has been noted elsewhere in this Annual Report an administrative change at Harwich Junior/Senior High during the past summer has resulted in a new Administrative Team for your public school system since 1980. Specifically this refers to the positions of Superintendent of Schools, Elementary School Principal (K-6), Jr./Sr. High School Principal (7-12), Director of Pupil Personnel Services/SPED Director/School Psychologist and Business Manager.

Schools and school systems continue to be the focus of the media and the citizens at large. The focus is mainly on two areas, namely; (1) quality and (2) cost of the programs. Since the complexities of society have made schools into multi-faceted social agencies the expectations for schools increase at the same time inflation takes buying power from the tax dollar. It is in this framework or context that our school system operates.

Therefore, during this school year your School Committee and Administrative Team have been developing goals—both short term and continuing—in order to maximize our efforts and resources. This will continue as well as seeking input from a broader base of educators and citizens in the community.

Following are reports from administrators which reflect services and activities taking place within their department. Preparation of these reports should be credited to: Harwich Elementary School—Ms. Joan McQuiston, Principal; Harwich Jr./Sr. High School—Mr. Vincent Bresnahan, Principal; Department of Pupil Personnel Services, Mr. James Hartley; and Business Manager, Mr. John Z. Dillon. Again this year I hope these comments will be beneficial.

HARWICH ELEMENTARY SCHOOL

It is with much pleasure that I submit my first report to the people of Harwich as your elementary principal. This past year has been exciting and rewarding as well as productive, thanks to a dedicated staff and supportive, involved parents.

Communication between school and home is a very high priority. The energy, willingness and cooperative efforts of our parents were reflected in the huge success of the 1981-82 Winter Carnival. 5 February 1983 is the date for the second annual Winter Carnival. Everyone is invited to join in the festivities.

We now have a monthly newsletter, The Sandpiper, which carries home school news and announcements of activities being held in the community.

At least once a month, parents, teachers and I meet in the elementary school library for a Brown Bag Lunch. Over sandwiches and coffee, we discuss, in an open, informal manner, any issues which is of general concern. The response to

these lunches has been very positive and we are addressing and solving a variety of problems.

Consistency, continuity and updating of curriculum is a major concern. Strides have been made in the areas of Language Arts, Reading, Social Studies and academic enrichment. Our basal reading program has been revised and appropriate materials are in place from Kindergarten through Grade 2. The Social Studies program K-6 has been updated and we are gradually adding new materials to support it while freshening up existing curricula.

A special Title IV-C grant has allowed us to begin integrating new materials into our newly-designed program for gifted and talented youngsters. The model is constructed to present study units into the regular classrooms setting, providing a myriad of related experiences to fit the abilities and needs of all children. The materials are academic in nature and include work in geometry, maps and globes, introductory engineering, problem-solving and general science. All these curriculum projects are ongoing and we will continue to evaluate, revise and expand learning experiences for our youngsters which are productive, interesting and relevant.

We are happy that our school is becoming a popular spot for adult education classes. The school should be more than a place for children to learn. It should also be an active, integral component of town life.

Minimum competencies in the basic skills of reading, writing and mathematics were evaluated and reported for Grades 3 and 5 according to state requirements. The Iowa Tests of Basic Skills, administered to all students Grades 1 through 6, provided the achievement scores in reading comprehension and mathematics. Writing competency was judged on specifically directed writing samples.

High percentages (88 to 93 per cent) of students in Grades 3 and 5 achieved over the minimum standards. Any student not performing satisfactorily was identified to the classroom teacher as one who would require individual attention.

A listening skills evaluation proposal was accepted by the State Board of Education. This will be implemented, as required, in the 1982-83 school year.

In conclusion, I wish to express how pleased I am to serve as your principal. The entire staff is currently immersed in another successful and challenging school year.

JOAN C. McQUISTON
Principal

JUNIOR-SENIOR HIGH SCHOOL

Basic Skills Testing

The Massachusetts basic skills achievement tests (Iowa Test of Basic Skills) were administered to students in grade seven in the Spring of 1982. The results were as follows:

Test	Percentage of Students Meeting Minimum Standards
Reading	99%
Writing	83%
Mathematics	98%

Students not meeting the minimum standards are presently being helped and prepared for future testing. A Listening Test will be added during the Spring of 1983.

This year the school administration has met with interested parent groups at the junior and senior high levels in order to open avenues of communication between the school and the community. A new, strengthened code of conduct has been instituted this year as well as a number of curricu-

lum changes in an effort to bring about the best possible education for all our students. A new health curriculum is being instituted in the freshman year which includes training in cardiopulmonary resuscitation. Both the Mathematics and English departments will now be giving time to prepare students for the college board exams. (SAT's and PSAT's) The Business and Mathematics departments are expanding our use of computers, and computer-training courses have been instituted for both junior and senior high students this year with greater expansion being planned for next year. The Social Studies curriculum next year will include a new Advanced Placement course in U.S. History, and after successfully completing this course students may choose to take the national A.P. exam to qualify for college credit and for placement. The mathematics department has upgraded the pre-requisites for each course so as to allow each student to proceed at his/her optimum speed. They are introducing a new course in practical geometry for those not quite ready for the regular geometry course. The band will meet every day next year for full academic credit.

We are developing a course description booklet which will be sent home with the high school students to allow the parents a better opportunity to review the school's program before their youngsters sign up for next year's courses. The junior high students are taking home-work assignment sheets home every day to help them organize their work and so that parents can review each day's homework with the youngster and help ensure that it is completed.

There were 46 students inducted into the National Honor Society this fall (20 seniors, 24 juniors and 2 sophomores). The National Honor Society will be involved in a new tutoring program for students having academic difficulties, and in fundraising for scholarships to be awarded at graduation. The extra-curricular programs are in full swing at both the junior and senior high schools thanks in part to a great deal of time donated freely by many faculty members and volunteers from the community.

The school's fall sports teams at press time have had successful seasons. Of particular note is the field hockey team which went on to win the finals of the entire south-east section of the state.

Any parents interested in joining either the junior high or senior high parents group can call the Principal at 432-0340 for further information.

PUPIL PERSONNEL SERVICES

Special Education

The Harwich Public Schools provide special education for children ages 3 thru 21 as mandated by Chapter 766.

All schools have a referral team comprised of the Director of Pupil Personnel Services, Principal, school psychologist, counselor, regular and special education teachers. The purpose of this team is to insure that all regular education alternatives are utilized prior to referral for special education procedures.

Screening programs are administered to pre-schoolers along with children in regular kindergarten.

At each school, there are resource room teachers who provide individual and small group instruction to special needs students. Two speech and language pathologists administer to the needs of students with communication deficits. In addition, the Harwich Public Schools have the services of counselors and school psychologists providing intellectual and academic testing. Both individual and group counseling are important aspects of this program.

Chapter I instruction fills a vital role providing for the needs of children in the areas of reading, language arts and math remediation.

Guidance

Guidance services are available for all students grades 7 through 12. Students work with the same counselor for 2 years in the Junior High School. At grade 9, the counseling responsibilities are structured so that each student may remain with the same counselor for the four year sequence.

In addition to the usual personal, academic, and informational counseling, there is a diverse testing program, a work study program with a number of students placed in supervised occupations and a formal career education program for grades 7 and 8.

The coordination of college preparation, in the form of scholastic testing, applications, letters of recommendations, financial aid, etc., are vital to the overall guidance responsibilities.

Health

The health service staff is comprised of one nurse and two health-aides who are responsible for the health and welfare of all the students K-12. There are two school physicians and one school dentist who perform direct service as well as act as consultants.

The school nurse and her staff are responsible for administering first-aid and screening procedures for eyes, ears and postural defects. The emphasis this year has been on increasing the nurse's role in health education. At the secondary level there will be instruction in first-aid and C.P.R. as well as other health related special subjects.

REPORT OF BUSINESS MANAGER

The business operation of the school has progressed satisfactorily during 1982, and as reported previously certain plans were underway to do more in the area of energy conservation. Individual energy conservation projects will be covered herein along with other business items of general interest.

Two of our more senior custodial employees retired during the past year. Mr. Ben Pina, lead custodian at the Intermediate School, retired during the Spring and our lead custodian at the Elementary School for many years, Mr. Joe Barber, retired effective the last day of 1982. Their personal touch in making things operate as smoothly as possible, which went unnoticed more often than not, made a significant contribution to the daily operation of the facilities in order that the educational interaction between students and faculty could function without interruption. The faculty and staff join in expressing appreciation for their dedicated efforts, and best wishes for continued success.

Our competition among State public institutions for matching Federal grants to pursue some of our energy conservation measures met with zero success. Our demonstrated need for assistance, although fully documented, was not as severe as was the case for many of our competitors. Even

though our competitors whose need was greater than ours in the eyes of the Commonwealth's "Executive Office of Energy Resources", did not fare any better than ourselves simply because the reservoir of Federal funds evaporated beyond expectations. However, some satisfaction must go with the idea of doing without Federal assistance and involvement and going it alone on implementing some of the energy projects. These include the installation of overhead thermal insulation in all of our buildings; the adaptation of additional controls and sensing devices on our heating systems; the installation of gas fired domestic hot water heating systems in two of our buildings (as opposed to using the more costly and inefficient furnace/boiler system) for use during the Spring and Fall cycles; the installation of more efficient and less costly light fixtures in common-use areas such as our multi-purpose and gymnasium facilities; the modification, overhaul and repair of steam lines and traps; and additional insulation and vinyl siding on more of the High School complex. These items are of the more significant projects undertaken but there were other small items accomplished and underway that will have the effect of further tightening the buildings and greater savings of our energy use. The consequences of all that has been done should be of a fairly dramatic and significant nature. However, a true measure of such change will not be conclusive until the following spring and early summer. Giving full account to the type and severity of the winter it is anticipated that we can at that time make visible to the local taxpayers the benefits that have been obtained and will continue to accrue.

The 1982 year was not without problems and foremost among them was the theft of considerable electronic, audio-visual, photographic equipment along with food items. This occurred during the time period of contractual effort on the installation of overhead thermal insulation. The perpetrator(s) of the theft(s) even with the extensive and professional effort on the part of the Police Department were never identified and attempts at recovery of the equipment were not successful. The loss has obviously deterred our educational ability but with indulgence and innovation we anticipate with the help of the voters the equipment can be replaced in total before the beginning of the 1983/84 school year. Our claim with the insurance company was to a degree successful; but in keeping with State laws and Town practices

the entire amount of the claim settlement reverts to the General Revenue and must await voter affirmative action before replacement of the equipment can begin. All of this in the category of "lessons learned" is cause for the school department to examine for improvement on how vulnerable we may be to actions of this and similar natures and to take appropriate actions in consort with the Town for better risk management.

Action is underway to correct the problem associated with asbestos (as outlined in our letter of Parents and Guardians) in the Elementary School. The complete correction of the problem is the object of a special article in the Town Warrant and this too must await affirmative action on the part of the voters. Although an immediate problem does not exist, the nature and extent of potentially or serious health hazard certainly suggests that we move to get the problem corrected before the start of another school year.

In Conclusion:

During my first year in Harwich I have benefited greatly from the many personal contacts made and gained a great deal by observing your Town in action. I trust it has been mutual and that continued progress in our schools will take place for the benefit of all concerned.

In closing, it is my wish to create, maintain or improve an atmosphere where the following exist:

- We set an example by demonstrating that we consider what we do important, and that doing it well matters a great deal.
- We honor competence wherever we find it—in mathematics, art or physical education. We cultivate a climate which is neither anti-intellectual nor academically snobby.
- We join in building an educational community which manifests a spirit of cooperation and mutual support as we strive to provide the very best for the children of our town.
- We establish a climate which respects differences, treats all citizens with dignity and respect regardless of their religious, racial, national or ethnic origin.

With your continued assistance these expectations can become a reality and effect the lives of every student in the Town of Harwich. My thanks to the School Committee, total school staff, volunteers, parents and students who have done so many positive things for which we can be proud.

Respectfully submitted,

A. ROBERT TWISS

1981-1982 Annual Report

Cape Cod Regional Technical High School District

The year 1982 has been a busy and productive one for our school and its students, as evidenced by the following sampling of the year's activities and accomplishments.

January is remembered primarily as the month when much time and thought were concentrated on the development of an acceptable budget for the 1982-83 school year, an effort carried on with advice from Finance Committee members from our member towns.

In February a group of our students spent a week in Belgium on a student exchange program, a pleasurable and beneficial venture for all involved. During this month we also entered into a cooperative agreement with Cape Cod Community College whereby students in their Electronics Technician program would use our facilities on an after-school basis, thus saving the College the cost of purchasing equipment already available at Cape Cod Tech. In exchange for the use of our building and electronics facilities, the College is permitting some of our more able students to enroll there during their senior year for advanced classes. This exchange of facilities and instructional resources is working very well, and we are looking forward to other areas of cooperative effort in the future.

Members of two senior-year classes attended a School Committee meeting in March to present a request that they be allowed to manufacture and sell quarterboard signs as a means of raising funds for the materials necessary for the construction of a solar kiln to be used for the drying of green lumber. The Committee quickly approved the request and complimented the students for this evidence of the student body's willingness to contribute to the improvement of our school. This project earned about \$2,100. Also during March we learned that Lisa Streib, a senior, had won a national award given by the American Cancer Society, and that another of our students, Tammy White, had been chosen by the Military Order of World Wars to be a delegate to their annual convention in Valley Forge. We are very proud to have young people like Lisa and Tammy as students at Cape Cod Tech.

On April 22, the School Committee met for dinner and discussion with the chairmen and chairwomen of our advisory committees. Each of our shop programs has an advisory committee; such committees are most important to us since they bring to bear on our curriculum the understanding and experience of men and women at work in the various crafts and trades for which our students are preparing themselves.

At the end of the school year Mary Haynes, a member of our English department, returned after spending a year in England on a Fulbright Teacher Exchange. She was very excited about her experiences, and looks forward to applying some of her observations and contacts abroad in her teaching at Cape Cod Tech. David Hope was the teacher from England who replaced Mary for the year. We were delighted with David and pleased with his impact on the student body, and all members of the staff and faculty were touched by his warmth and understanding.

A group of faculty members attended a meeting of the School Committee in August to ask permission to conduct an alcohol safety education program for our student body. Many schools in the area are involved with programs of this sort, and we are very appreciative of the initiative and efforts of our staff.

The construction of a new Nauset Regional School District Administration building by our students has moved along well during the year and on schedule with completion anticipated by late spring 1983. Participating in this project are students in Painting and Decorating, Carpentry, Masonry, Air Conditioning, Plumbing and Horticulture. We urge you to stop by during any school day to see the work that has been done by the young people of Cape Cod Tech.

Last spring, when program and staff cuts had to be made because of the impact of Proposition 2½, one program eliminated was Driver Education. I am pleased to be able to report now that we have been able to reinstate that program on an after-school, student-fee-supported basis, and it is operating very successfully.

During the last two months of 1982 we have been hard at work on the preparation of a budget for the 1983-84 school year and we wish to take this opportunity to thank members

of the Finance Committees in our member towns for their help with this difficult but necessary annual task.

Thanks are also due the Cape Cod Tech Crusader Parents' Association, which has been active this year, and to the members of all of our advisory committees for the numerous ways in which they as individuals and groups have contributed to improvement of our shop instruction.

Finally, Cape Cod Tech exists to serve all of the citizens, young and old of our 12 member towns, so if you see ways in which we might be of service to you, don't hesitate to call the school (432-4500, 771-2600).

Warrant
Annual Town Meeting

April 5, 1982

THE COMMONWEALTH OF MASSACHUSETTS

BARNSTABLE, ss:

To either of the Constables of the Town of Harwich in
said County, Greetings:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of said Town qualified to vote in elections and Town affairs to meet in the High School Gymnasium, Oak Street in said Town on Monday, April 5, 1982, at 8:00 A.M. then and there to act on Article 1 and afterwards on the following day, Tuesday, April 6, 1982, at 7:00 P.M. to meet in the High School Gymnasium, Oak Street, to act on the remaining articles.

Polls will be open at 8:00 A.M. and close at 8:00 P.M.

Hereof fail not to make returns of this warrant with your doings thereon at the time and place of said meeting.

Given under our hands this third day of February, 1982.

s/BARRY A. HEMEON

s/DONN B. GRIFFIN

s/JULIANA PETERSON

A true copy:

Attest: s/JOSEPH BARBER, Constable

March 23, 1982

By virtue of this warrant I have this day notified and warned the inhabitants of this Town of Harwich, qualified to vote in elections and Town affairs to meet in the Harwich High School Gymnasium, Oak Street, in said Town on Monday, April 5, 1982, at the time and place for the purpose herein named by posting up attested copies thereof in the four (4) post office buildings in the Town of Harwich, seven days at least before the time of said meeting as within directed, and causing an attested copy thereof to be published in The Cape Codder, a newspaper published in Barnstable County and having its circulation in the Town of Harwich and after-

Article 20. To see if the Town will vote to amend the Zoning By-Law, SECTION III, ESTABLISHMENT OF ZONING DISTRICTS, paragraph A, by inserting in said paragraph a new zoning designation entitled: "Multi-Family Residential Rural — MRR".

And to further amend said Zoning By-Law by amending the Zoning Map as described in SECTION III, Paragraph B, by changing a portion of the present R-R zoning district to an MRR district, said new district to be bounded as follows: on the North by Kendrick Road, on the East by Route 28, on the South by Bay Road, on the West by Church Street. The remaining portion of the R-R district to be unchanged, as shown on the accompanying sketch map.

And to further amend said By-Law, SECTION V, USE REGULATIONS, Paragraph D, TABLE OF USE REGULATIONS, by deleting from the opening sentence the phrases "Paragraph MR-L — Multi-Family Dwelling" and "Paragraph MRL-1 — Multi-Family Dwelling", and by adding to said table a new column entitled "MRR". Said new column to have the same use designations as provided for in the present R-R zoning district except in Paragraph 1, subparagraph 3, Multi-Family Dwelling, which in the new zoning district shall be allowed by special permit and so designated by inserting an "S" in the appropriate column.

And to further amend said By-Law, SECTION VI, Paragraph D, Subparagraph 14 by inserting the designation "MRR" following the designation "MR-L".

And to further amend said By-Law, SECTION B1, TABLE 2, AREA REGULATIONS, by inserting in the appropriate columns the following:

ARTICLE 20

MRR	Any permitted use	40,000	150	25	20	20
	Multi-family	8 con-	150	50	50	50
	Residential	tiguous				
		acres min.				
		Max. density				
		8 bedrooms per				
		acre.				

And to further amend said By-Law, SECTION VII, TABLE 3, HEIGHT AND BULK REGULATIONS by inserting in the column marked "district" the new designation "MRR" and by establishing the same requirements for the new district as presently provided in the MR-L district, and to act fully thereon. By request of the Planning Board.

Motion: (Mr. Thayer) I move that this article be indefinitely postponed. (Duly seconded.)

Action: It is a vote — to indefinitely postpone.

Article 21. To see if the Town will vote to amend the Zoning By-Law of the Town of Harwich, Section V, USE REGULATIONS, Paragraph D, by deleting the words "Paragraph MR-L — Multi-Family Dwelling" and "Paragraph MRL-1 — Multi-Family Dwelling" and to further amend said By-Law, Section VI, Table 2, AREA REGULATIONS, following the notation under District "R-H-3", move the entire line starting 'Any permitted use' so as to follow the line which starts 'Hotel and Motel' and to add the word "other" to said line so that the line starts with the words "Any Other Permitted Use", and following the notations "MR-L" and "MRL-1", move the entire line which starts "Multi-Family use" so as to follow the line which starts "Multi-Family Residential" and to add the word "Other" to each of said lines so that the line starts with the words "Any Other Permitted Use", and to act fully thereon. To see if the Town will vote to adopt the following policy relative to street lighting in order to provide for the most effective and economical use of street lighting in the Town, no street light shall hereafter be approved for installation or maintenance by the Board of Selectmen except as follows:

1. Streetlighting for roadways adjacent to municipal facilities where the vehicular and pedestrian safety of employees and the public will be served, or where the lighting will aid in the protection of municipal facilities from vandalism, theft or other damage.
2. Streetlighting for all crosswalks on main thoroughfares.
3. Streetlighting for major intersections where well-traveled access roads meet or cross main thoroughfares.

4. Streetlighting for intersections, curves, or sidewalks with a history of past (or potential for future) pedestrian or vehicular traffic mishaps which can be directly attributed to a lack of adequate street lighting.
5. Streetlighting for roadways adjacent to public buildings such as stores, post offices, churches, and libraries, where it has been shown that there are general traffic and pedestrian problems because of the building's usage.
6. Streetlighting on public ways near any industrial or commercially zoned area where it is proved that such lighting is needed for public safety.

and, further, to authorize the Board of Selectmen to appoint a Committee of not less than three (3) nor more than five (5) members to advise the Selectmen, and from time to time the Town Meeting concerning future modifications to the street light policy. The policy set forth herein may, from time to time, be modified by the Selectmen if in the opinion of the Board public safety and convenience requires such modification and to act fully thereon. By request of the Board of Selectmen.

Motion: (Mr. Thayer) I move that this article be accepted and adopted. (Duly seconded.)

Amendment: (Mr. Lane) I move that the main motion be amended to read:

That the town vote to adopt the following policy relative to street lighting in order to provide the safest and most effective use of street lighting in the Town; that no street light shall hereafter be approved for installation or maintenance by the Board of Selectmen except as follows:

1. Streetlighting for roadways adjacent to municipal facilities where the vehicular and pedestrian safety of employees and the public will be preserved, or where the lighting will aid in the protection of municipal facilities from vandalism, theft or other damage.
2. Streetlighting for all crosswalks on main thoroughfares.
3. Streetlighting for major intersections where well-traveled access roads meet or cross main thoroughfares.

4. Streetlighting for intersections, curves, or sidewalks with a history of past (or potential for future) pedestrian or vehicular traffic mishap which can be directly attributed to a lack of adequate street lighting.
 5. Streetlighting for roadways adjacent to public buildings such as stores, post offices, churches, and libraries, where it has been shown that there are general traffic and pedestrian problems because of the building's usage.
 6. Streetlighting on public ways near any industrial or commercially zoned area where it is proved that such lighting is needed for public safety.
 7. Street lighting on all streets in residential areas of the Town including lights removed after July 1, 1981.
- and, further, to authorize the Board of Selectmen to appoint a Committee of not less than three (3) nor more than five (5) members to advise the Selectmen, and from time to time the Town Meeting concerning future modifications to the street light policy. The policy set forth herein may, from time to time, be modified by the Selectmen if in the opinion of the Board public safety and convenience requires such modifications. (Duly seconded.)

Article 52. To see if the Town will vote to amend the Town of Harwich Zoning By-Law as follows: Section II, Definitions, add the following terms and definitions: **Cluster Development:** An option to conventional grid-type subdivision which permits the building of single family dwellings with reduced lot area and frontage requirements so as to create a development in which the buildings and accessory uses are clustered together into one or more groups separated from adjacent property and other groups within the develop-

ment by intervening open land. **Open Space:** The area within a cluster development which is prohibited from present or future development except for outdoor recreational purposes (i.e. playing fields, tennis courts, bicycle paths).

Section V, Use Regulations Table, Paragraph 1, Residential Uses, add item 9 Cluster Development Single family dwellings, to be permitted by Special Permit in R-R, R-L, R-M, MRL-1 only.

Section VI, Area, Height and Bulk Regulations, Table 2, to the R-R, R-L, R-M, MRL-1 districts add the following:

under the heading Use, Cluster Development Single Family Dwellings; under the heading Area, 5 contiguous acres with 30% of the applicable land to remain open space — lot area per unit 10,000 square feet; under the heading **Lot Frontage**, 50 ft. within the interior of the development; under the heading **Yards**, front (ft.) 25, Side (ft.) 10, Rear (ft.) 10.

Section X, Clause G. Special Permits, add to the first sentence, dwellings, Cluster Developments for single family dwelling, after the words multi-family so as to read . . . The Planning Board shall have the authority to hear and decide applications for Special Permits for multi-family dwellings, Cluster Developments for single family dwellings, hotel or motel uses.

Section X, Clause G., add the following new paragraphs 3, 4 & 5:

3. Special Permits for Cluster Developments of single family dwellings may be granted upon determination by the Planning Board that the plan is preferable to a conventional grid-type subdivision in preserving open space for conservation or recreation, in utilizing natural features of land, in allowing more efficient provisions of street, utilities and other public services.

List of conditions to be considered over conventional grid subdivisions

1. Variation in lot size and building arrangements.
2. Avoidance of frequent minor street or driveway openings onto through streets, or near street intersections.

3. Prevention of extensive topographic change which might cause the removal of vegetation and trees.
4. Preservation of natural landscape in large contiguous areas enhancing the likelihood of continuation of existing conservation land and the possibility of extended recreational trails.
5. Use of Common Open Space to protect valuable natural environments such as streams, valleys, outstanding vegetation, or scenic spots and to avoid the development of geologically unsuitable land.

4. The Planning Board in granting a Special Permit for Cluster Development shall have the authority pursuant to General Laws, Chapter 40A, Sections 2 & 9 to require open space be conveyed to the Town or a non-profit organization, the principal purpose of which is the conservation of open space, or a corporation or trust owned or to be owned by the owners of lots or residential units within the development. If such a corporation or trust is utilized ownership thereof shall pass with conveyance of the lots or residential units. In any case where the open space is not conveyed to the Town a restriction enforceable by the Town shall be recorded providing that such land be kept in an open or natural state not to be built upon or developed for accessory uses such as parking or roadways.

5. In a Cluster Development the total number of dwelling units shall not exceed the number of units which could be developed under a conventional grid-type subdivision.

- a. The maximum number of dwellings per development shall equal the applicable land area divided by the minimum lot area requirements for a conventional grid-type subdivision in that district or districts.
- b. Applicable land area shall be determined by a registered land surveyor and equals the total area encompassed by the development plan, minus all marsh or wetland, except for 25% which may be included in the applicable land area figure, and minus land for road construction or land otherwise prohibited from development by local By-Law or other regulations.
- c. When the Cluster development includes more than one ownership and or lies in more than one district the num-

Article 53. To see if the Town will vote to amend the Zoning By-Law, SECTION II, DEFINITIONS by deleting the definition for "SIGN" and the definition for "SIGN, SURFACE AREA OF" in their entirety, and by adding the following definitions:

SIGN: A structure used to advertise, to warn, or to inform the public by use of lettering and/or graphic display.

SIGN, SURFACE AREA: The surface area of a sign shall be computed as including the entire area within a regular geometric form or combination of such forms, comprising all of the display area on a face of the sign, and including all of the elements of the matter displayed.

SIGN, VISIBLE SIDE: That portion of the sign surface area containing displayed lettering or other advertising matter. No sign shall have more than two such display areas.

SIGN, STRUCTURAL SUPPORT: That portion of the sign structure having the purpose of maintaining the sign in its intended position. No structural support shall by reason of color, shape, size, or location be allowed to supplement the surface area permitted, shall not bear any advertising material, and shall not be included in the computation of surface area.

SIGN, OFF PREMISE: A sign located on premises other than the premises to which it relates.

And to further amend said By-Law by deleting Section VII in its entirety and by substituting the following:

A. PURPOSE

This section of the zoning by-law is to stabilize and improve by regulation the use, design, number, size and location

of signs in the Town of Harwich.

B. PERMITS

1. Any person proposing to erect a sign in the Town of Harwich, excepting signs herein specifically exempted, shall obtain a permit for such sign from the Building Inspector.

2. Application for a sign shall be submitted on the form provided, and shall include a sketch of the proposed sign, including: (a) Dimensions, (b) Materials, (c) Lettering and wording, (d) Colors, (e) Place and type of installation and fastening, (f) Method of lighting, if any.

3. Sign permits will be issued upon determination by the Building Inspector that the general and specific requirements of the by-law have been met.

C. GENERAL REQUIREMENTS, ALL ZONES

1. Each sign shall be installed and maintained so as to present no danger to the public from the usual acts of nature and the casual acts of persons. No sign shall be permitted to interfere with the vision or sight lines of motorists or pedestrians.

2. No sign, except for a "Barber Pole" when used for its usual function, whether located outside of or plainly visible from outside a building or structure shall have any moving parts, flashing parts, fluorescent paint, blinking lights, or gaseous tube illumination. Indirect, reflective, or internal illumination shall be permitted which is not distractive to motorists or unduly objectional to neighboring property. Sign illumination shall be permitted only during the hours that the premise is open for business, or until eleven PM., whichever is later.

3. Traffic, directional or other sign owned and installed by a governmental agency are allowed without permit. Signs other than traffic or directional signs owned or installed by a governmental agency will be expected to conform to the requirements of this by-law. Privately owned traffic signs shall be allowed on private property without permit, shall not exceed 3 square feet per visible side, and shall exhibit no advertising matter.

4. Signs of a temporary nature, such as those used to advertise sales or promotions in retail establishments and the

like shall be posted only inside the building housing the sale or promotion, and shall not require a permit.

5. No sign, whether attached to a building or free standing, shall rise above the peak of the building to which it refers. An off-premise sign shall not exceed the height of the nearest building.

6. Signs for public convenience, such as for telephone, first aid, or rest rooms are allowed without permit provided they do not exceed 3 square feet of surface area per visible side.

7. A poster or other temporary sign for political, charitable, or sponsored non-profit activity shall be allowed without permit, provided that each sign (a) shall not exceed 3 square feet of surface area per visible side, (b) shall not exceed one sign per premise, (c) shall be removed immediately following the advertised activity, election, caucus or meeting.

8. Posters or other temporary signs advertising a yard, garage, or other informal sale shall be allowed by permit. Such signs (a) shall not exceed 3 square feet of surface area per visible side, (b) shall not exceed a total of one sign per sale premise and two other signs at nearby street locations, (c) shall be exhibited only on the day of the sale, and shall be removed at the end of each sale day.

9. Religious organizations may exhibit signs of the usual type showing the name of the edifice, times of services, etc. on the church premise without a permit. Temporary signs advertising special events shall be allowed on the church premise without permit.

10. A poster or other temporary sign used to advertise the sale of real estate shall be allowed without permit in all zones provided that such signs (a) shall be limited to one sign per premise or lot not to exceed 3 square feet of surface area per visible side, (b) shall be removed within 24 hours after title to the advertised property has passed, (c) shall in no case be overlaid with, or have affixed to the sign or support any indication of the property having been sold.

11. A poster or other temporary sign used to advertise real estate for lease or rent shall be allowed without permit in all zones, provided that such signs (a) shall be limited to one sign per premise, (b) shall not exceed 3 square feet per visible side, (c) shall be removed as soon as its primary purpose has been served.

12. No trailer or vehicle which is so situated, parked, or used so as to appear that its primary purpose is that of an advertising medium, device, or sign shall be permitted.

13. Establishments holding an active and bona fide franchise for a trade marked product or service, or which are an active and bona fide branch of an organization with such a product or service, may exhibit the trade mark, logo, or sign normal to such a franchise or branch provided all other conditions of the by-law are met.

14. No flag, banner, bunting, pennant, streamer, or similar device shall be used for advertising purposes or for the purpose of attracting attention to any premise, except that a bona fide and permitted auction may display the red flag that is usual and common to that activity. This paragraph shall not be construed as restricting the display of the American or Commonwealth of Massachusetts flags for their legitimate purposes.

15. A builder or contractor may exhibit without permit on residential premises under construction or alteration one sign not exceeding 3 square feet of visible surface area. Such sign shall be removed when the work is substantially completed or an occupancy permit is issued. Builders of commercial or other large scale projects shall apply to the Building Inspector for permits for construction signs. Such signs shall substantially comply with the standards for commercial signs listed below, and shall be removed when the project is substantially completed or an occupancy permit is issued.

16. The owner of any sign, or the owner of the property where any sign is installed, or the owners agent, shall promptly remove or obliterate any sign which has become obsolete or meaningless or which sign has become a danger or hazard to the public. If said owner or agent elects to obliterate rather than remove any sign the work shall be performed in a neat and workmanlike manner.

17. The Building Inspector may issue permits for one or more banners to be displayed over a street or way in the Town. Such banners shall be permitted only for charitable, sponsored non-profit, or public activities. The permit shall specify the location, size, method of installation, and the installation and removal dates.

D. RESIDENTIAL ZONES

1. In residential areas the following signs may be erected without permit:

- (a) Signs at property entrances or on residences which indicate the name of the resident and/or the name of the property and/or the street number of the property, such sign not to exceed 3 square feet of surface area. No sign shall indicate a business, profession, or occupation.
- (b) Residential quarterboards of the type common to the area.
- (c) "Ladder" type directional signs with individual sections not larger than 4 by 24 inches.
- (d) Building dating signs similar to the type installed by the Harwich Historical Society.

2. In these zones certain other signs may be erected as defined elsewhere in this by-law.

E. COMMERCIAL/INDUSTRIAL ZONES

1. In these zones the following may be allowed by permit, except as noted below.

- (a) One free standing sign for each premise, center, mall, or location. The surface area of such sign shall not exceed 12 square feet per visible side for premises containing one business or enterprise, 16 square feet of surface area per visible side for premises containing more than one business or enterprise.
- (b) Said free standing sign may have "ladder" signs attached, up to a maximum of 6 such ladders, or one ladder for each business located in the premises, whichever is greater. Such ladders shall not exceed 8 inches in height, nor exceed the width of the sign to which attached. Said ladders may be attached to a permitted sign without further permit.
- (c) Any free standing sign designed as a rectangle or oval shall have a height to width ratio of approximately 3 to 4 or 4 to 3.
- (d) In addition to said free standing sign there will be allowed one sign per business or enterprise, with one

visible side, fixed to the building surface, of a size not to exceed 10% of the surface area of that portion of the building used by said business or enterprise to which the sign is applied.

- (e) Premises using no free standing sign as in (a) above shall be permitted twice the surface area as in (d) above.
- (f) Quarterboard signs of carved wood construction shall be permitted to replace such signs as in (d) above, in which case the permitted size shall be twice that allowed in said (d).
- (g) No supplementary, auxiliary, or "sandwich" signs shall be permitted or allowed except as specified in (b) above.
- (h) No commercial sign shall be attached to any fence, or tree or other natural feature.
- (i) No sign or advertising or other message shall be applied directly to any building roof surface by means of paint or stain or similar method.

2. In these zones certain other signs may be erected as defined elsewhere in this by-law.

- 3. (a) Any commercial enterprise located and permitted in a residential zone as of January 1, 1982, shall be permitted one display type sign on the premise, which sign shall not exceed 6 square feet per visible side, and may have attached a maximum of 3 "ladder" signs not to exceed 6 inches in height, nor exceed the width of the sign to which attached. Said enterprise shall further be permitted one off-premise display type sign, and not more than 3 off-premise directional signs. Said off-premise display sign shall have a surface area of not more than 6 square feet if located in a residential zone, nor more than 12 square feet if located in a commercial zone. Said directional signs shall not exceed 6 by 24 inches in size.
- (b) Organizations such as a Chamber of Commerce, service clubs, religious groups may apply to the Building Inspector for a permit for a common sign structural support located at the main entrance to the Town for the purpose of displaying the usual and common notices of meeting times and places.

- (c) No off-premise sign other than those in (a) and (b) above shall be permitted.

F. LIMITATIONS

1. On and after October 1983, all signs existing, or erected, or displayed in the Town of Harwich shall conform to the requirements of this by-law, except that any sign legally in place as of January 1, 1982, which does not exceed the size limitations herein by more than 20% may remain in use until October 1, 1985, or until it is removed for repair or maintenance, whichever shall come first, and to act fully thereon. By request of the Planning Board.

Motion: (Mr. Thayer) I move that this article be indefinitely postponed. (Duly seconded.)

Action: It is a vote — to indefinitely postpone.

Resolution

Following action on Article 53, the Moderator recognized Mr. Siffard who offered the following resolution:

Be it resolved that a Sign Code Study Committee be appointed by the Selectmen consisting of no less than five and no more than seven members to include the Building Inspector and a member of the Planning Board; the remainder to be citizens of the Town, at least two of which shall be the owner of a business in Harwich; this Committee to review the existing Code and prepare necessary revisions for inclusion in the 1983 Harwich Town Meeting Warrant.

Attest: s/JOSEPH BARBER, Constable

August 24, 1982

By virtue of this warrant I have this day notified and warned the inhabitants of this Town of Harwich, qualified to vote in elections and town affairs to meet in the Harwich High School Gymnasium, Oak Street, in said Town on Wednesday, the eighth day of September, 1982, at the time and place for the purpose herein named by posting up attested copies thereof in the four (4) Post Office buildings in the Town of Harwich, fourteen (14) days at least before the time of said meeting as within directed, and causing an attested copy thereof to be published in the Cape Codder, a newspaper published in Barnstable County and having its circulation in the Town of Harwich.

s/JOSEPH BARBER, Constable

At 7:00 P.M. the Special Town Meeting was called to order in the High School Gymnasium, Oak St., Harwich, by the Moderator, Michael D. Ford.

The Special Town Meeting Warrant and the Return of the Warrant were read by the Town Clerk, Ruth B. Ericson; there being no objection, the reading of the Articles was waived. The meeting was then adjourned until 7:10 P.M. in the Auditorium, since the Gymnasium was unavailable for this purpose at this time.

At 7:10 P.M. the Moderator reconvened the meeting, but recessed it immediately to wait for a quorum to be present and seated.

At 7:20 P.M. the Moderator reconvened the meeting, having been informed that the required quorum was present. (416 Registered Voters attended this meeting; the quorum requirement is 250.)

An invocation was given by the Rev. James R. Williams, and the Moderator then proceeded to read the first Article.

Article 1. To see if the Town will vote to raise and appropriate a sufficient sum of money to be added to the Salary Wage and Expense Accounts of the Police Department to implement the Police Contract for fiscal year 1983 and to act fully thereon. By request of the Board of Selectmen.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of thirty-six thousand

seven hundred fifty-eight dollars and eight cents (\$36,758.08) be raised and appropriated and added to the Salaries & Wages and Expense accounts of the POLICE Department. (Duly seconded.)

Action: It is a vote.

Article 2. To see if the Town will vote to raise and appropriate a sufficient sum of money to be added to the Salary and Wage Accounts of the School Department to fund the new compensation scales for fiscal year 1983 to implement the Union Contracts and to act fully thereon. By request of the School Committee.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of one hundred forty-eight thousand three hundred and three dollars (\$148,303.00) be raised and appropriated and added to the Salaries & Wages accounts of the School Department. (Duly seconded.)

Action: So voted by voice vote.

Article 3. To see if the Town will vote to raise and appropriate a sufficient sum of money to be added to the General Insurance budget and to act fully thereon. By request of the Board of Selectmen.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of eight thousand and thirty dollars (\$8,030.00) be raised and appropriated for this purpose. (Duly seconded.)

Action: So voted by voice vote.

Article 4. To see if the Town will vote to authorize the Selectmen to purchase or take by eminent domain the land at the intersection of Route 39 and Route 137 adjacent to the Fire Station described as follows:

BEGINNING at a point in the centerline of the Route 137 County layout at Station 36 + 78.04;

THENCE S 36°-19'-40"E along the centerline of the layout a distance of 303.97' to the intersection of the County layout of Route 39;

THENCE N 42°-40'-40"E along the centerline of the layout a distance of 303.97' to a point;

THENCE N 47°-19'-20"W a distance to 30.00' to a point on the Route 39 right-of-way line;

THENCE along a curve to the right whose radius is 70.00' for a distance of 87.71' to a point;

THENCE along a curve to the left whose radius is 250.00' for a distance of 185.50' to a point;

THENCE along a curve to the left whose radius is 70.00' a distance of 87.71' to a point on the right-of-way line of Route 137;

THENCE S 53°-40'20"W a distance of 30.00' to the point of beginning.

Said land to be acquired subject to any outstanding County easements of way and to be used in connection with the fire station or for other suitable municipal purposes and to raise and appropriate a sufficient sum of money for this purpose and to act fully thereon. By request of the Board of Selectmen.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of one thousand five hundred dollars (\$1,500.00) be raised and appropriated for this purpose. (Duly seconded.)

Action: It is a unanimous vote and I so declare it.

Article 5. To see if the Town will vote to authorize and instruct the Selectmen to purchase or take by eminent domain for conservation purposes as provided in G.L. C40, S8C, two (2) certain parcels of real estate on Bells Neck Road shown as Lot No. 1 containing 66,600 sq. ft. more or less and Lot No. 2 containing 21,400 sq. ft. more or less as shown on a plan entitled "Plan of Land in Harwich, Mass. made for Albert P. Riloff, Scale 1" = 60', November 1969", recorded in Plan Book 234, Page 103, and to raise and appropriate a sufficient sum of money for this purpose and to act fully thereon. By request of the Board of Selectmen and the Conservation Commission.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of twenty-nine thousand five hundred dollars (\$29,500.00) be transferred from available funds for this purpose and the Selectmen be author-

ized to purchase or take by eminent domain the land described in said article. (Duly seconded.)

Action: It is a unanimous vote and I so declare it.

Article 6. To see if the Town will vote to raise and appropriate a sufficient sum of money to be used in the program of well testing as the Board of Water Commissioners shall determine and to act fully thereon. By request of the Board of Water Commissioners.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of \$25,000.00 be raised and appropriated for well testing for Water Department purposes on the following described land:

Lots 2,3,4,5,6 & 7 as shown on a plan entitled "Plan of Land in East Harwich, Mass., for Louis P. Balboni, Scale 1" = 60', September 16, 1976", which plan is recorded at the Barnstable County Registry of Deeds in Plan Book 308, Page 28. (Duly seconded.)

Action: So voted by voice vote.

Article 7. To see if the Town will vote to raise and appropriate or transfer from available funds a sufficient sum of money to purchase a pick-up truck, and to trade a 1975 Dodge pick-up truck, funds obtained from the trade to be used to defray the cost of the new vehicle and to act fully thereon. By request of the Parks & Recreation Commission.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of seven thousand three hundred dollars (\$7,300.00) be transferred from available funds for this purpose. (Duly seconded.)

Action: So voted by voice vote.

Article 8. To see if the Town will vote to raise and appropriate or transfer from available funds a sufficient sum of money to purchase materials to be used by the Cape Cod Regional Technical High School students to construct a storage building at Wixon Memorial area at the east end of Long Pond and to act fully thereon. By request of the Parks & Recreation Commission.

Motion: (Mr. Thayer) I move that this article be indefinitely postponed. (Duly seconded.)

Action: It is a vote — to indefinitely postpone.

Article 9. To see if the Town will vote to raise and appropriate or transfer from available funds the sum of six hundred twenty dollars (\$620.00) to purchase a tilt-bed utility trailer, and to return to revenue the sum of three hundred fifty dollars (\$350.00) appropriated in Article #74-1982, and to act fully thereon. By request of the Parks & Recreation Commission.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of two hundred and seventy dollars (\$270.00) be raised and appropriated and three hundred and fifty dollars (\$350.00) be transferred from Article 74 of 1982 to a total of six hundred and twenty dollars (\$620.00) for this purpose. (Duly seconded.)

Action: So voted by voice vote.

Article 10. To see if the Town will vote to instruct the Harwich Golf Commission to investigate the feasibility of constructing a Nine-Hole Municipal Golf Course as a part of the Cranberry Valley Golf Course; and to raise and appropriate a sufficient sum of money for this purpose and to act fully thereon. By request of the Harwich Golf Commission.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of two thousand five hundred dollars (\$2,500.00) be transferred from available fund for this purpose. (Duly seconded.)

Following debate, Horace Chase moved the question. The motion was duly seconded.

The following Tellers were appointed and duly sworn to their duties by the Moderator: Norman Fennell, Fred Ebbett and Henry Wood.

Action: A standing vote was taken.

YES — 290

NO — 112

(A $\frac{3}{4}$ vote was needed, which would amount to 302.)
It is not a vote.

Lengthy debate followed.

Action on original motion: So voted by voice vote.

Article 11. To see if the Town will vote to raise and appropriate a sufficient sum of money to implement preliminary design engineering and environmental permits from Federal, State and Town agencies for approximately thirty (30) additional slips to be added to the west dock at Saquatucket Harbor, and provide for plans for future replacement and maintenance of original floatage of the same and to act fully thereon. By request of the Committee on Harbor Development.

Motion: (Mr. Thayer) I move that this article be accepted and adopted and that the sum of three thousand two hundred dollars (\$3,200.00) be transferred from available funds for this purpose. (Duly seconded.)

Action: So voted by voice vote.

Article 12. To see if the Town will vote to authorize the Selectmen to establish and collect annual use fees for certain commercial vehicles operating on public docks and piers of the Town of Harwich including Allen's Harbor, Wychmere Harbor, Saquatucket Harbor and Round Cove and to act fully thereon. By request of the Committee on Harbor Development and the Waterways Committee.

Motion: (Mr. Thayer) I move that this article be indefinitely postponed. (Duly seconded.)

Action: It is a vote — to indefinitely postpone.

Article 13. To see if the Town will vote to authorize the Selectmen to establish and collect annual mooring fees from vessels or craft which are moored at any time within the adjacent waters, salt or fresh, except fresh-water ponds, of Harwich; or except as provided by regulation and to act fully thereon. By request of the Committee on Harbor Development and the Waterways Committee.

Motion: (Mr. Thayer) I move that this article be accepted and adopted. (Duly seconded.)

Action: So voted by voice vote.

Mr. Thayer, Chairman of the Finance Committee, then spoke briefly concerning the calling of Special Town Meetings. He said they were considering the formulation of a

new policy having to do with this matter and that there were four main issues needing examination:

1. Contract settlements (which should really be settled in time to incorporate into the budget at the Annual Town Meeting.)
2. The term "emergency" is difficult to define. Finance Committee recommendations will be made on the basis of study of each "Emergency Article" to decide if the situation actually merits the attention of a Special Town Meeting, and should be recommended favorably.
3. Decision to hold a Special Town Meeting might rest on the question of the town's best interest, such as a bargain available or changes in Federal or State Regulations.
4. A citizen's right to submit articles should not be abridged. Finance Committee recommendation will be based on the merit of each article.

Adjournment at 9:02 P.M.

Motion: (Mr. Thayer) I move that this meeting be adjourned. (Duly seconded.)

Action: So voted by voice vote.

TOWN OF HARWICH
State Election Warrant

November 2, 1982

THE COMMONWEALTH OF MASSACHUSETTS
BARNSTABLE, ss:

To either of the Constables of the Town of Harwich in
said County, Greeting:

In the name of the Commonwealth you are hereby re-
quired to notify and warn the inhabitants of said Town quali-
fied to vote in elections to meet in the Harwich High School
Gymnasium, Oak Street, Harwich Center on

Tuesday, the second day of November, 1982
from 7:00 A.M. to 8:00 P.M., for the following purposes:

To cast their votes in the State election for the candi-
dates for the following offices:

U.S. SENATOR	For this Commonwealth

REPRESENTATIVE IN GENERAL COURT	
	1st Barnstable Representative District
DISTRICT ATTORNEY	Cape & Islands District
CLERK OF COURTS	Barnstable County
REGISTER OF DEEDS	Barnstable County
COUNTY COMMISSIONER	Barnstable County

and to vote on the following questions:

QUESTION 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the
constitution summarized below, which was approved by the

General Court in joint sessions of the House of Representatives and the Senate on July 2, 1980 by a vote of 171-4 and on June 21, 1982 by a vote of 144-44?

Yes

No

SUMMARY

The proposed constitutional amendment would remove the present constitutional prohibition against the use of public funds to aid or maintain private primary or secondary schools.

It would permit the Commonwealth, cities and towns to make public funds available to pupils attending private primary and secondary schools in the form of either aid, materials or services subject, however, to three specific limitations. First, the private school could not be one that discriminates on the basis of race or color in its admission requirements. Second, the grant of aid must be consistent with the First Amendment to the United States Constitution which guarantees the free exercise of religion and prohibits the establishment of religion. Third, individual pupils would have to request the aid, materials or services. In addition to these specific limitations, the amendment would authorize the legislature to enact other laws imposing conditions or restrictions on the grant of public aid, materials or services.

The proposal would also change the state constitution to allow public money to be spent to aid infirmaries, hospitals, charitable or religious undertakings if they are either publicly owned or under the control of public officials. The State constitution now prohibits such spending unless these institutions are both publicly owned and under the control of public officials.

QUESTION 2

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on September 19, 1980 by a vote of 123-63, and on June 21, 1982 by a vote of 125-62?

Yes

No

SUMMARY

The proposed constitutional amendment would allow the legislature to enact laws authorizing the state courts to impose the death penalty on the conviction of crimes to be specified by law. The proposed amendment would provide that no provision of the state constitution may in the future be construed as prohibiting the imposition of the punishment of death.

QUESTION 3

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below on which no vote was taken by the House of Representatives or the Senate before July 7, 1982?

Yes

No

SUMMARY

The proposed law would require that before the construction or operation of any new nuclear power plant or low-level radioactive waste storage or disposal facility in the Commonwealth, the legislature must make certain findings and a majority of voters must approve the new facility at a state-wide election.

Before the question of building a new nuclear power plant could be submitted to the voters, the legislature would have to find that (1) the proposed facility is the best means for meeting energy needs based on certain economic, safety, environmental and social consideration; (2) a federally-licensed facility exists for the disposal of the high-level radioactive waste that would be generated; (3) an approved emergency preparedness plan has been developed; (4) radioactive pollution standards have been promulgated; and (5) a demonstrated, federally-approved technology exists for decommissioning the proposed power plant.

Before the question of building and operating a low-level radioactive waste storage or disposal facility or of entering into an agreement with another state to build and operate

such a facility in Massachusetts could be submitted to the voters, the legislature would have to find that the technology and site designated for the proposed facility are the best available based on certain economic, safety, environmental and social considerations. The legislature would also have to find that the obligations imposed on Massachusetts by any interstate agreement were no greater than those imposed on any other state.

The proposal would not apply to a facility which had obtained all necessary government approvals before August 5, 1981, nor to any facility for disposal or storage of radioactive wastes from medical or bio-research applications in Massachusetts.

QUESTION 4 REFERENDUM ON AN EXISTING LAW

Do you approve of a law summarized below, which was approved by the House of Representatives on November 10, 1981 by a vote of 108-49, and by the Senate on November 16, 1981 by a vote of 29-10?

Yes

No

SUMMARY

The law requires that a refundable deposit be paid for certain beverage containers sold in Massachusetts.

Beverage containers of less than 32 ounces must have a refund value of at least five cents and larger containers a refund value of at least ten cents. This requirement applies to non-biodegradable containers of carbonated soft drinks, mineral water, beer and other malt beverages, but not to containers of other alcoholic beverages, dairy products, natural fruit juices or wine. All beverage containers subject to deposit must clearly indicate the refund value on the container.

The deposit is paid by the consumer upon purchase and must be refunded when the consumer returns the empty container to a proper dealer or redemption center, so long as the container does not contain any material different from its normal contents. Dealers and distributors are also subject to the same deposit and refund on the beverage con-

tainers they handle, and are also entitled to a handling fee of at least one cent per container.

No containers can be sold in the state if they are joined together by plastic rings or any other device that cannot be broken down by light or bacteria.

The law provides a bottler a reduction in corporate excise tax of one-tenth of one cent for each reusable beverage container which the bottler sells in the first three months of 1983. The law provides for additional unemployment benefits, and if the Legislature appropriate the funds, a job retraining program for employees of bottlers, canners, or manufacturers of beverage containers who lose their jobs as a result of this law.

The law takes effect on January 17, 1983.

QUESTION 5

and to raise and appropriate a sufficient sum of money for this purpose; said land to be under the jurisdiction of the Conservation Commission pursuant to G.L. c40, s8c and to act fully thereon. By request of the Conservation Commission.

The Finance Committee recommends that this article be accepted and adopted. To complete the Herring River conservation plan.

Article 27. To see if the Town will vote to raise and appropriate a sufficient sum of money to construct a new water tower on Town-owned land off Lothrop Avenue and construct up to three (3) new pumping stations together with all necessary systems to support the installations and construct or install such additional water mains to upgrade the water system as the Water Commissioners should determine and to take any other action in connection therewith and to act fully thereon. By request of the Board of Water Commissioners.

The Finance Committee recommends that this article be accepted and adopted providing that the voters authorize the exemption of the bond from the provisions of Proposition 2½. Estimated cost: \$4,192,000. To extend the water system.

Article 28. To see if the Town will vote to raise and appropriate a sufficient sum of money to be used for the extension of water mains as the Board of Water Commissioners determine and to authorize the Commissioners to use the money so appropriated as matching funds for any State or Federal grants which may be available and to act fully thereon. By request of the Board of Water Commissioners.

The Finance Committee recommends that this article be indefinitely postponed. Estimated cost: \$600,000. This project is encompassed in Article 27.

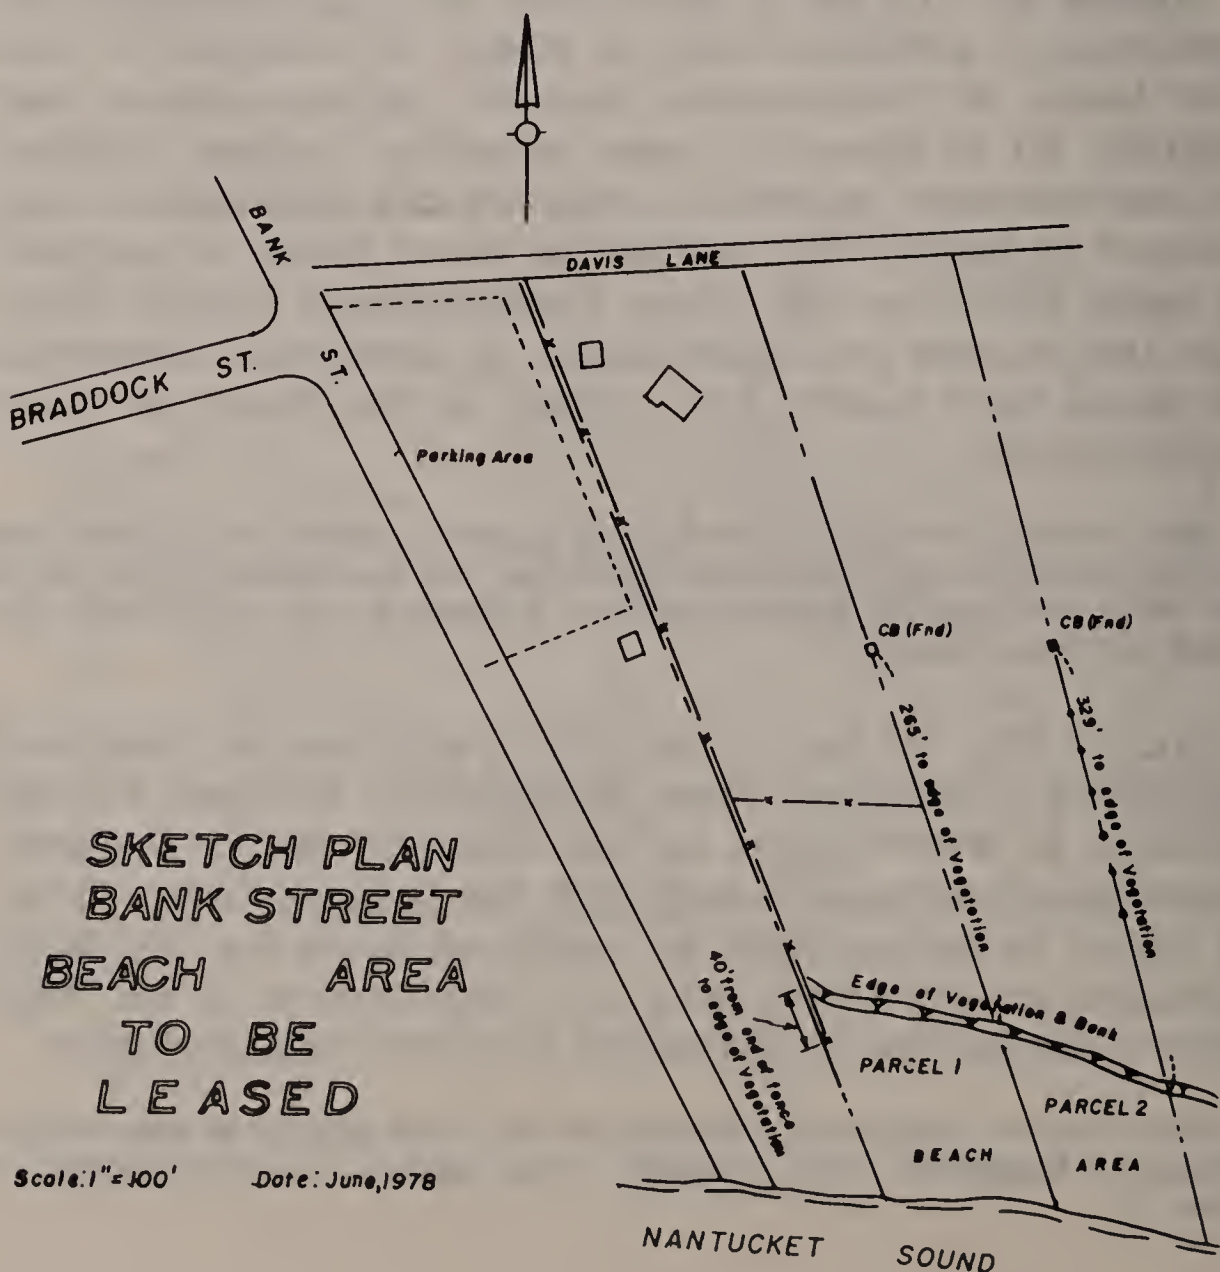

Article 29. To see if the Town will vote to raise and appropriate a sufficient sum of money for engineering expenses for the Water Department and to act fully thereon. By request of the Board of Water Commissioners.

The Finance Committee recommends that this article be accepted and adopted. Cost: \$7,000. Customary article.

Article 30. To see if the Town will vote to raise and appropriate a sufficient sum of money to purchase and equip a new station wagon type vehicle to be used by the Water Department and to authorize the Board of Water Commissioners to trade, sell or otherwise dispose of the 1974 Ford Station Wagon now owned by the Town. Sum received from the trade-in or sale to be used toward the purchase of the new vehicle and to act fully thereon. By request of the Board of Water Commissioners.

The Finance Committee recommends that this article be accepted and adopted. Allocated: \$9,000. Scheduled vehicle replacement.

Article 31. To see if the Town will vote to authorize the

Board of Water Commissioners to dispose of the Fairbanks Morse Engine at the main pumping station under the jurisdiction of the Water Department in such manner and on such terms and conditions as they deem appropriate and to act fully thereon. By request of the Board of Water Commissioners.

The Finance Committee recommends that this article be accepted and adopted. To dispose of unneeded equipment.

Article 32. To see if the Town will vote to raise and appropriate a sufficient sum of money for the purpose of leasing two (2) parcels of beach land now owned by Harry W. Cladouhos and Robert G. Smith (formerly Estate of Douglas P. Allison), which abuts Town-owned beach at the foot of Bank Street according to a plan on file with the Town Clerk for the months of July, August and September, 1983 and June 1984 and to act fully thereon. By request of the Board of Selectmen.

The Finance Committee recommends that this article be accepted and adopted. Customary article. Cost: \$2501.

Article 33. To see if the Town will assume liability in the matter provided by Section 29 of Chapter 91 of the General Laws as amended by Chapter 516 and 524, Acts of 1950, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts, for the improvement, development, maintenance and protection of tidal and non-tidal rivers, streams, harbors, tide-waters, foreshores, and shores along a public beach outside of Boston Harbor, including the Merrimack and Connecticut Rivers in accordance with Section 11 of Chapter 91 of the General Laws and authorize the Selectmen to execute and deliver a bond of indemnity to the Commonwealth. Customary article.

The Finance Committee recommends that this article be accepted and adopted. Customary article.

Article 34. To see if the Town will vote to raise and appropriate the sum of five thousand (\$5,000.) dollars to be used for improvements to the Town beaches and parking areas including, but not limited to, oiling, surfacing and patching; repairs and replacements of beach steps; repairs to comfort stations; marking parking lots; signs; fences; board-

walks, and to act fully thereon. By request of the Board of Selectmen.

The Finance Committee recommends that this article be indefinitely postponed. Cost: \$5,000. Unable to recommend funding at this time due to the constraints of Proposition 2½.

Article 35. I hereby petition the Town of Harwich to include the Wixon Memorial Beach, located at the East End of Long Pond, under the same boating regulations as the other town beaches. These regulations were passed at general Town Meeting of 1982. By petition of Norman E. Spunt and others.

The Finance Committee recommends that this article be indefinitely postponed. This is covered by a by-law adopted in 1982.

Article 36. We, the undersigned petition the town of Harwich to remove Wixon Memorial Beach at the east end of Long Pond, from the jurisdiction of the Parks and Recreation Department and add it to the responsibilities of the Beach Committee. This would put all beaches (except Sand Pond, where organized recreation activities take place) under the responsibility of one organization for better control and adherence to town bylaws. By petition of Norman E. Spunt and others.

The Finance Committee recommends that this article be accepted and adopted. By agreement with the Parks & Recreation Commission.

Article 37. I hereby petition the town of Harwich to petition the state of Massachusetts for permission to remove the boat launching and landing ramp of the East End of Long Pond at the Wixon Memorial Beach. The narrowness of the lake there and the great potential hazard of mixing swimmers and boats in such close proximity makes this extremely necessary. By petition of Norman E. Spunt and others.

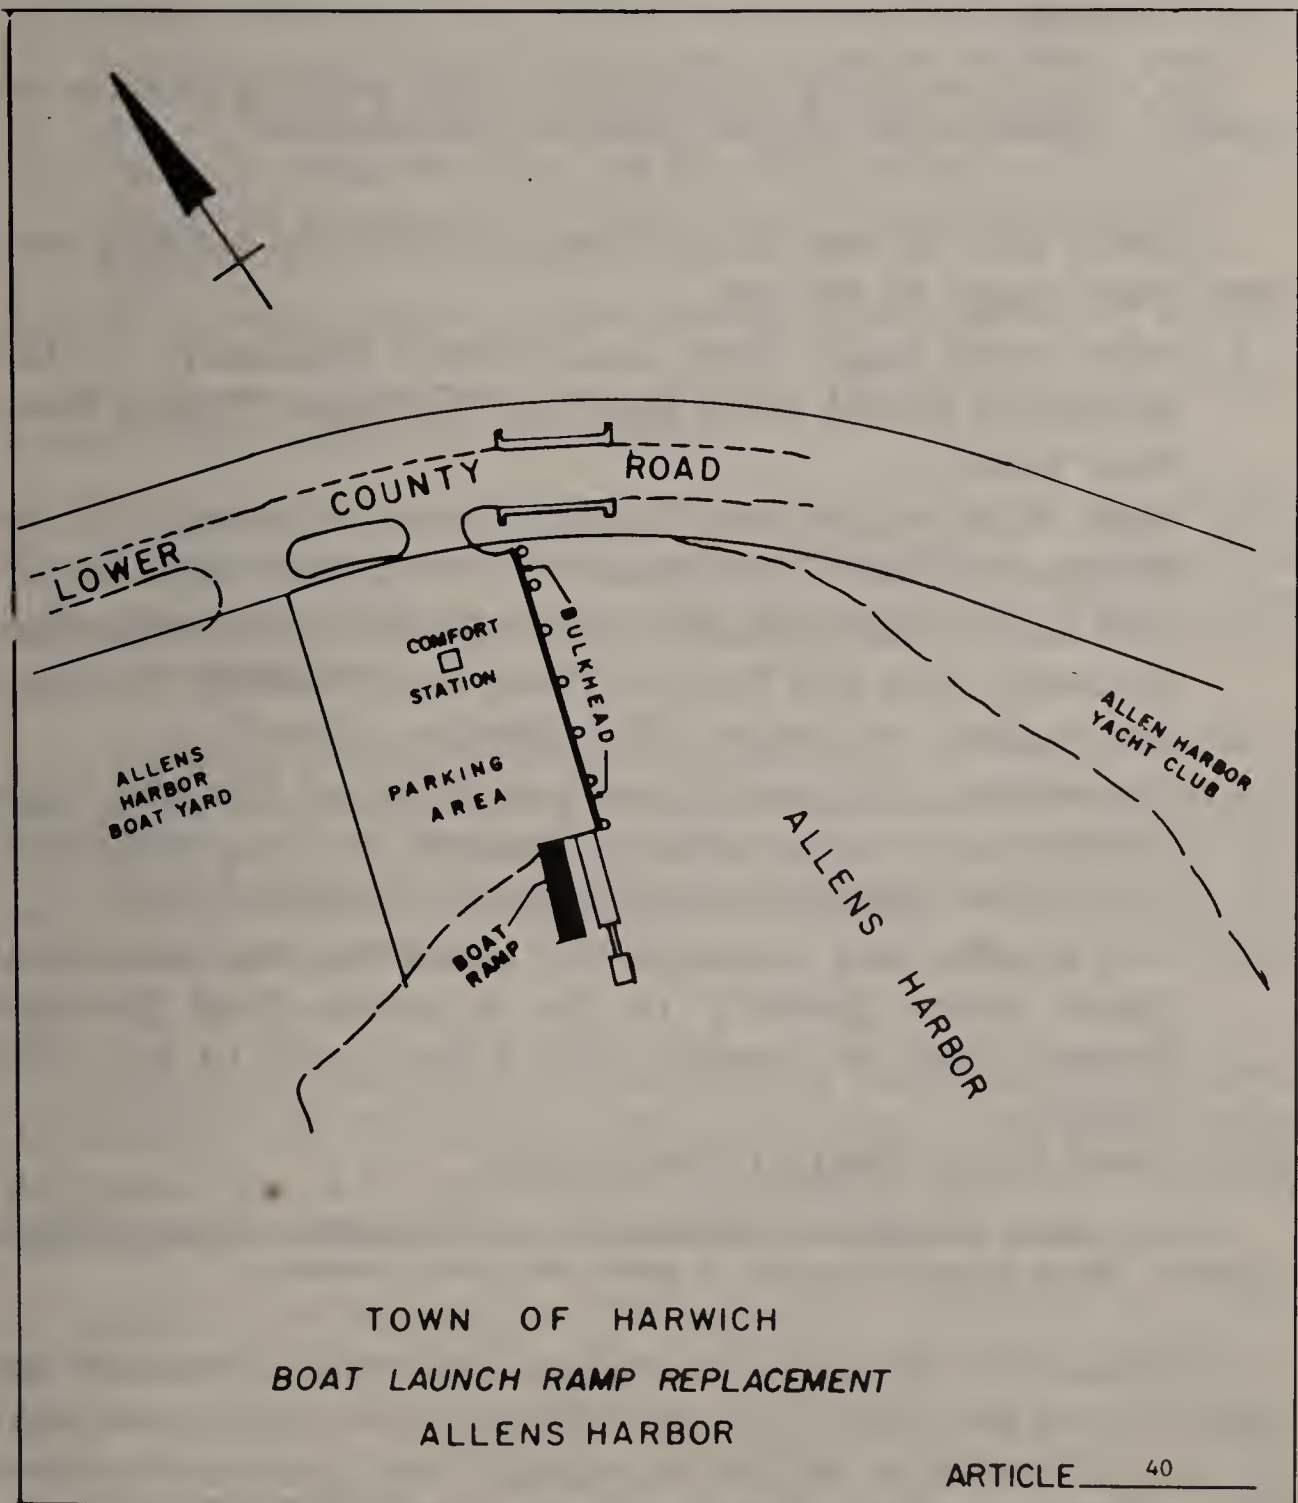

The Finance Committee recommends that this article be indefinitely postponed. The Harbormaster has chosen an alternate solution.

Article 38. To see if the Town will vote to raise and appropriate a sufficient sum of money to design, construct and install additional boat slips and ancillary utilities south of the West Dock of the existing Saquatucket Marina and to act fully thereon. By request of the Committee on Harbor Development and the Waterways Committee.

The Finance Committee recommends that this article be accepted and adopted. Cost: \$99,432. To expand a revenue producing enterprise.

Article 39. To see if the Town will vote to authorize the Selectmen to lease for a period not to exceed ten (10) years the fuel dock and a sufficient area of land adjacent thereto at Saquatucket Harbor to a suitable person or firm in order to provide fuel service at the marina facility. Said lease to be on such terms and conditions as the Selectmen deem to be in the best interest of the Town and to act fully thereon. By request of the Board of Selectmen.

The Finance Committee recommends that this article be accepted and adopted. Customary renewal of lease.

Article 40. To see if the Town will vote to raise and

appropriate a sufficient sum of money to repair and/or replace the boat launching ramp at Allen's Harbor and to act fully thereon. By request of the Natural Resources Officer and the Town Engineer.

The Finance Committee recommends that this article be indefinitely postponed. Unable to recommend funding at this time due to the constraints of Proposition 2½, and in agreement with the Natural Resource Officer. Estimated cost: \$32,000.

Article 41. To see if the Town will vote to raise and appropriate a sufficient sum of money to be spent by the Harbormaster for corrective maintenance at the Wychmere Town Pier and to act fully thereon. By request of the Waterways Committee.

The Finance Committee recommends that this article be accepted and adopted. Estimated cost: \$13,000. Necessary maintenance.

Article 42. To see if the Town will vote to rename certain Town roads as follows:

1. West Gate Road from Main Street Northerly to the Southerly access road shall be renamed "South West Gate Road".
2. West Gate Road from Factory Road Northerly to the Brewster line shall be renamed "North West Gate Road".
3. The access road parallel to and North of the Mid-Cape Highway from the Dennis Town line Easterly to Depot Street shall be named "Old Chatham Road".
4. The access road parallel to and North of the Mid-Cape Highway from Depot Street Easterly to the turnaround at the end thereof shall be named "Factory Road".
5. The access road South of the Mid-Cape Highway from Depot Street Easterly to the turnaround at the end thereof shall be named "Bog Lane", and to act fully thereon.

By request of the Board of Selectmen.

The Finance Committee recommends that this article be accepted and adopted. More specific naming of roads for safety reasons.

Article 43. To see if the Town will vote to amend the Zoning By-Law, Section X, Paragraph E, by deleting the next to the last sentence of said paragraph and inserting in place thereof the following new sentence: "The Board of Appeals is hereby authorized to establish from time to time, by regu-

lation, the filing fee to be charged for filing a petition or appeal with the Board, said fee shall not exceed fifty (\$50.00) dollars."

The present By-Law establishes a twenty-five (\$25.00) dollar maximum filing fee and to act fully thereon. By request of the Board of Appeals.

The Finance Committee recommends that this article be accepted and adopted. More appropriate user charge.

Article 44. To see if the Town will vote to amend the By-Law, Article V, **Public Safety**, by adding a new section to be designated 5-104 to read as follows:

5-104: The fee for original or renewed licenses for recreational camps, overnight camps or cabins, motels or mobil home parks located within the Town of Harwich shall be four (\$4.00) dollars per unit, provided the maximum fee shall not exceed fifty (\$50.00) dollars,

and to act fully thereon. By request of the Board of Health.

The Finance Committee recommends that this article be accepted and adopted. More appropriate user charge.

Article 45. To see if the Town will vote to amend the Zoning By-Law, SECTION II, DEFINITIONS by inserting the following new definition after the definition of STRUCTURE to read as follows:

TOXIC OR HAZARDOUS MATERIALS: Toxic or hazardous materials shall include residual oil, hydrocarbon products including but not limited to gasoline, fuel and diesel oil and any other substances classified or controlled as toxic, caustic, corrosive, radioactive or infectious pursuant to the provisions of G.L. c21C.

And to further amend said By-Law SECTION III, ESTABLISHMENT OF ZONING DISTRICTS, paragraph A by adding to paragraph A a new district designation entitled, "WATER RESOURCE PROTECTION DISTRICT W-R".

And to further amend said By-Law SECTION III, paragraph B by adding to paragraph B the following: The Water Resource Protection Districts established hereunder are shown on a map entitled, "Town of Harwich Water Resource Protection District Map Dated January 20, 1983, Scale 1" = 2,000', which map is on file in the office of the Town Clerk, the

authenticity of said map to be established in the same manner as provided above for establishing the authenticity of the zoning map.

And to further amend said By-Law SECTION III, paragraph C by adding to said paragraph C the following new subparagraph to be numbered 3 and to read as follows: Where any uncertainty exists concerning the location of the boundary of the Water Resource Protection District, the precise location of the boundary line on the ground shall be determined by on-site inspection and testing by the Town or at the option of the Town by a professional geologist or hydrologist approved by the Town. The purpose of testing will be to determine the location and extent of an aquifer or recharge area and to establish the boundary line of the district accordingly. Any costs of inspecting, testing and surveying to determine the boundary location shall be borne by the property owner who shall have the burden of establishing to the satisfaction of the Town the precise district boundary location.

And to further amend said By-Law, SECTION V, USE REGULATIONS, paragraph A, APPLICABILITY OF USE REGULATIONS by deleting said paragraph and inserting in place thereof a new paragraph A to read as follows:

“A. APPLICABILITY OF USE REGULATIONS. Except as provided by the Zoning Act or this By-Law, in each district no building, structure, water body or lot shall be used or occupied except for a purpose which is authorized by the Table of Use Regulations in the zoning district wherein the land is located, and if the land, building, structure or water body is located in a Water Resource Protection District, said land shall not be used or occupied except for a purpose permitted in the underlying zoning district as well as the Water Resource Protection District. Any use not listed shall be construed to be prohibited.”

And to further amend said By-Law, SECTION V, paragraph D, TABLE OF USE REGULATIONS, Table 1 USE REGULATIONS, by inserting in said table a new district heading designated WR and to insert under the new district heading the appropriate symbol as provided in SECTION V, paragraph B, to indicate the uses which are to be permitted (P), pro-

hibited (—) or allowed on special permit (S) as follows:

Paragraph I, RESIDENTIAL USES. Uses listed in sub-paragraphs 1,3,5,7,8 and 9 permitted. Uses listed in sub-paragraphs 2 and 6 prohibited.

Paragraph II, COMMUNITY FACILITIES. Uses listed in sub-paragraphs 1,2,3,6,8,9,11 and 13 permitted. Uses listed in sub-paragraphs 4,5,10 and 14 allowed on special permit. Uses listed in sub-paragraph 7 and 12 prohibited.

Paragraph III, AGRICULTURAL AND RELATED USES. Uses listed in sub-paragraphs 1,2,3 and 6 permitted. Uses listed in sub-paragraph 4,5 and 7 authorized on special permit.

Paragraph IV, COMMERCIAL USES. Uses listed in sub-paragraphs 1,3,4,8,9,11,12,13,16,20 and 24 permitted. Uses listed in sub-paragraphs 2,5,7,10,14,15,17,18,19,21,26,29,33 and 36 authorized on special permit. Uses listed in sub-paragraphs 6,22,23,25,27,28,30,31,32,34 and 35 prohibited.

Paragraph V, LAND FILL DREDGING AND EXCAVATION. Uses listed in sub-paragraphs 2,4 and 5 permitted. Uses listed in sub-paragraphs 1 and 3 prohibited.

And to further amend said By-Law, SECTION VI, Table HEIGHT AND BULK REGULATIONS, Paragraph A by inserting between the first and the last sentence of said paragraph the following new sentence: "In the Water Resource Protection District, the regulations as herein set forth for the underlying zoning district shall apply."

And to further amend said By-Law, SECTION VI, Table 2, AREA REGULATIONS under the heading "Area" relative to lot areas in the MRL-1 Zoning District for multi-family residential uses by changing the figure 6.25 to 4 so that the maximum density for multi-family residential uses in that zoning district will be 4 bedrooms per acre rather than the 6.25 bedrooms per acre.

And to further amend said By-Law, SECTION VIII, HOME OCCUPATION, Paragraph A by adding a new sub-paragraph to be designated 7 and to read as follows:

"7. There shall be no disposal of toxic or hazardous materials as defined in this By-Law in connection with the home occupation."

And to further amend said By-Law, Section II, DEFINITIONS by deleting from the definition of SPECIAL PERMIT

GRANTING AUTHORITY the last sentence thereof and inserting in place thereof the following:

"The Board of Appeals established hereunder shall be special permit granting authority for all other such permits including special permits to change, alter or extend a non-conforming use and special permits to establish a use in Water Resource Protection Districts."

And to further amend said By-Law, SECTION X, Paragraph G SPECIAL PERMITS by changing the present subparagraph G (2) to subparagraph G (3) and inserting a new subparagraph G (2) to read as follows:

"2. Notwithstanding the provisions of paragraph 1 above, the conditions set forth therein shall not apply to applications for special permits in the Water Resource Protection District unless a special permit is required for the intended use in the underlying zoning district. In granting a special permit for a use requiring such permit in the Water Resource Protection District, the Board of Appeals shall make the following findings:

- a. Adequate provision has been made to safely and adequately store, handle and dispose of all toxic or hazardous materials as well as to protect said materials from vandalism, corrosion, leakage and spills.
- b. Any proposed waste water treatment or disposal system has been or will be approved by the responsible state and local health agencies.
- c. All anticipated run-off from impervious surfaces will, whenever possible, be diverted to areas covered with vegetation.
- d. In cases where part of a site is located outside the Water Resource Protection District, maximum possible use of the area outside the district will be made for disposal of toxic or hazardous materials and sewage.
- e. All systems designed and intended to minimize or eliminate the threat of pollution to the groundwater resource are adequate in terms of design and proposed construction to provide reasonable protection against such pollution; and in the event said systems should fail, cor-

rective measures and procedures are available to warrant the conclusion that no unreasonable threat of pollution to the groundwater resource will be created."

To assist in making the required findings the Board may require by regulation an ecological impact statement which addresses the specific issues herein set forth, and the Board may by regulation establish a format for such ecological impact statement. Upon receipt of an application for a special permit under this section, the building inspector or the applicant at the direction of the building inspector will provide to the Planning Board, Conservation Commission, Board of Health, Town Engineer, Water Department and such other affected town agencies as the building inspector shall determine a complete copy of the application and accompanying documents for review and such comment and advice to the Board as the affected departments should deem appropriate.

And to further amend said By-Law, SECTION VI, AREA, HEIGHT AND BULK REGULATIONS, paragraph D, FURTHER REGULATIONS, by adding to said paragraph D the following new subparagraph to be numbered 15:

"15. Whenever the land upon which a multi-family dwelling is to be erected is located partially within a Water Resource Protection District, maximum possible use of the area outside the WR District will be made for the disposal of toxic or hazardous materials and sewage,"

and to act fuuly thereon. By request of the Planning Board.

No recommendation at this time pending Planning Board hearing.

Southeasterly three hundred and 12/100 (300.12) feet by land now or formerly of Mark W. Crowell.

There is excepted and excluded therefrom so much of the land which is located in the present C-H-2 Zoning District which said land shall remain in said C-H-2 Zoning District.

The remaining portion of the present R-L Zoning District to be unchanged, as shown on the accompanying sketch map.

And to further amend said By-Law, SECTION V, USE REGULATIONS, D. TABLE OF USE REGULATIONS by amending the use designation of Paragraph I. Residential Uses, sub-paragraph 3. Multi-family dwelling in the column entitled "CH-2" by inserting after the use designation "—" the number "(1)" to indicate a reference to a footnote to be inserted at the end of said Paragraph I.

And to further amend said By-Law, SECTION V, USE REGULATIONS, D. TABLE OF USE REGULATIONS, Paragraph I. Residential Uses, by inserting the following footnote at the end of said Paragraph I. to read as follows:

"Multi-family dwellings may not be constructed in the CH-2 Zoning District, but land in said CH-2 Zoning District can be used in connection therewith pursuant to SECTION VI, TABLE 2. AREA REGULATIONS, and for the construction of amenities and accessory uses to serve a multi-family dwelling project in an adjacent Zoning District where multi-family dwelling use is authorized".

And to further amend said By-Law, SECTION V, USE REGULATIONS, D. TABLE OF USE REGULATIONS by deleting from sub-paragraph 12 of Paragraph II. Community Facilities the words "Sewage treatment plant, or refuse facility" and substituting in its place the words "Sewage Treatment Plant or Refuse Facility as principal uses"; the use

designations to be the same as the present sub-paragraph 12 use designations.

And to further amend said By-Law, SECTION V, USE REGULATIONS, D. TABLE OF USE REGULATIONS by adding to said Table a new column entitled "MRL-2". Said new column to have the same designations as provided for in the present MR-L Zoning District except in Paragraph IV. **Commercial Uses**, sub-paragraph 2. Golf Course, which in the MRL-2 Zoning District shall not be allowed and so designated by inserting a "—" in the appropriate column.

And to further amend said By-Law, SECTION V, USE REGULATIONS, D. TABLE OF USE REGULATIONS, Paragraph IV. **Commercial Uses**, by adding new sub-paragraphs 37, 38 and 39 as follows:

- "37. Nursing Facility": not permitted in any Zoning District except "S" in the R-R and "P" in MRL-2 and W-R.
- "38. Adult Congregate Care Facility": not permitted in any Zoning District except "P" in MRL-2 and W-R.
- "39. Uses incidental to a Nursing Facility or Adult Congregate Care Facility, including but not limited to, adult day-care centers (which may be available to the public) and sundry store (not larger than 600 sq. ft.)": not permitted in any Zoning District except "P" in MRL-2 and W-R.

And to further amend said By-Law, SECTION VI, AREA, HEIGHT AND BULK REGULATIONS, Paragraph D. **FURTHER REGULATIONS**, by amending sub-paragraph 14 of Paragraph D. by inserting the words "MRL-2" after the words "MRL-1".

And to further amend said By-Law, SECTION VI, AREA, HEIGHT AND BULK REGULATIONS, by adding the following new paragraph:

- "G. With reference to SECTION VI, TABLE 2. AREA REGULATIONS, an increase in the maximum density in the MRL-2 Zoning District of 2.25 bedrooms per acre shall be allowed if a Sewage Treatment Plant referred to therein complies with all applicable state and local regulations."

And to further amend said By-Law, SECTION VI, TABLE 2. AREA REGULATIONS by inserting in said Table after the

regulations relative to the MRL-1 District the following regulations relative to the new MRL-2 District:

"District	Use	Area (Sq. Ft.)	Lot Frontage (Contiguous Ft.)	Yards		
				Front (Ft.)	Side (Ft.)	Rear (Ft.)
MRL-2	Multi-family residential	10 contiguous acres minimum; Maximum density 4 bedrooms per acre or 6.25 bedrooms per acre if Sewage Treatment Plant is provided; for the purpose of determining density, contiguously owned land in a CH-2 Zoning District may be included in computing the total area of the lot.	150	150	100	150
	Any other permitted use	30,000	125	25	20	20"

And to further amend said By-Law, SECTION VI, TABLE 3. HEIGHT AND BULK REGULATIONS, by inserting in said Table after the regulations relative to the MRL-1 District the following regulations relative to the new MRL-2 District:

"District	Maximum permitted height (ft.)	Maximum permitted height (stories)	Maximum building coverage of lot (covered area as percent of total lot area)	Minimum residential net floor area (sq. ft.)
MRL-2	40	2½	10	Studio or efficiency unit 450 sq. ft. one bedroom unit 600 sq. ft., two bedroom unit 940 sq. ft."

And to further amend said By-Law, SECTION VII, SIGN REGULATIONS, Paragraph C by inserting in said paragraph the new district designation, "MRL-2" in the caption of said paragraph after the district designation, "MRL-1", and to act fully thereon. By petition of Frederick Crowell and others.
